EDITOR'S FOREWORD

Now that the last bit of curry has been written and the skippers of all the dif-
ferent classes of Manual have dropped and the papers and cookbooks have
been prepared, we must regret the passing of one of the most enjoyable
years of school life. We hope that the Handbook will serve as a sequel to the
success of the previous volume. We hope that it will meet with
your approval and that it will accomplish
its purpose for which it has been pro-
duced.

With the hope that our efforts have not
been in vain, and that the Handbook will
have received the Staff attention it deserts,
DANE DYER, Editor.

THANKS!
To those organizations who contributed
to this book, and made it possible to produce
such a work, our thanks are due.

THE PRESIDENT’S GREETING.

To New Students Entering Miami University:

It gives me great pleasure to extend through this booklet a word of greeting to the new men and women who are coming to us from all parts of the world. It is with joy that I welcome you into the Miami University family and express to you the hope that you will find here the opportunity to develop the highest qualities of mind, body, and spirit. We are a community of scholars, united in our love for learning and our passion for discovery. Here, you will find a place where you can grow intellectually, emotionally, and spiritually.

Miami has a long history, and we take great pride in our traditions. We are committed to excellence in education and to the personal growth of our students. We encourage you to make the most of your experience at Miami, and to take advantage of the opportunities available to you.

M. M. HUGHES.
OLD MIAMI

(Anna Minor)

Old Miami, from the hill crest
That had watched the despairs roll.
While the sun had quenched from the
Scorched hearted, pure of soul.

Old Miami! New Miami!
Days of old and days to be
Gone, but the spirit lives on,
Our Miami, here's to thee.

Acted in thy simple Calvinist
How the soul to the storm, the calm, the world to hunger, in songs of strength from thee contained their love.

Then shall stand a constant beacon,
Crimson colors mantle the sky.
Men shall ever seek thy guiding
Power like thou shall never die.
Six years after the acceptance of Ohio as a state, the State Legislature, of 1811 provided for the establishment of Miami University as Oxford, a village between Dayton and Cincinnati.

Miami was little more than an academy until 1824, when the services of Joseph Billings were secured and the Miami University College was opened. About this time the two literary societies, The Emancipators and The Miami Scenes, were formed. The Emancipators at first issued their publications in the form of a weekly, later a monthly. The Miami Scenes came out weekly, and in the fall term of 1824 was published the first number of a student magazine, The Miami Echo.

During the Civil War, Miami increased rapidly in size and prestige. It was the only institution in the Northwest to receive the title of University and the only one to have a charter printed in the United States. The Miami Literary Society became the Miami Literary and Historical Society, and the Miami Echo became the Miami University Student Magazine. In 1854 Miami University was given a charter as a university and the magazine was changed to the Miami University Alumni Magazine.

In 1860 the University suffered under the leadership of President McFarland. From this time on the rise of the school was rapid, and without interruption. In 1877 women were allowed to enter the University.

College of Liberal Arts for the First Time. Following the Reopening of College in 1877, the College of Liberal Arts for the first time admitted women to its general college work. The Bachelor of Arts degree for women was admitted in high-school work in 1878, and a few women received degrees in the arts colleges. In 1878, the College of Liberal Arts for men and women was admitted to the school in high-school work, and in 1879, the College of Liberal Arts for women was admitted to high-school work. In 1879, the College of Liberal Arts for men and women was admitted to the school in high-school work.

Today Miami stands as one of the best equipped colleges in the Midwest. Its library, with over 1,000,000 volumes, is one of the largest in the country. Miami has a fine art program, including the creation of a student magazine, and the expansion of the library. Miami has a large athletic department and the courses of athletic studies are extensive. Miami has a large male body of students, and each year more students are enrolled in the male body of students. Miami has a large female body of students, and each year more students are enrolled in the female body of students.

Miami has been a leader in academic excellence and continues to be a leader in academic excellence. THE ADVISORY SYSTEM

In order to facilitate the handling of all matters connected with the student's progress, the following system of advisory committees has been established. Certain important classes are divided into divisions, and to each division an advisory committee is appointed, consisting of the head of the division, one professor or a person of similar status, and a number of instructors. This arrangement ensures a close cooperation between the various parts of the College and facilitates the work of the faculty in controlling the progress of the students. Each student is assigned to an advisor, who advises him concerning his course, and to whom he may turn for help in the solution of personal or academic problems. The divisions are as follows:

College of Liberal Arts: First Division, Dean Stelton; Second Division, Dean W. H. Robinson; Third Division, Dean H. H. Whitehead; Fourth Division, Dean J. H. Tilden.

REGISTRATION

Which the bulletin boards for the time being are assigned to regular and if possible to those who have the most leisure time later in the day. Those who are not living in the College will have the bulletin boards for a week. Those who are not on the bulletin boards for a week will have the bulletin boards for the rest of the year. The bulletin boards are for the use of the students and the faculty, and they are to be used for the purpose of disseminating information and announcements. The bulletin boards are to be regarded as an important part of the College, and all students are expected to make use of them.
Every Mind! man and woman is INDIVIDUALLY responsible for the Student Government and the Honor System.
NEW STUDENTS:
When you arrive in school, whether by train or bus, you will find a f. W. or T. M. representative waiting for you. He or she will direct you where to go and what to do and introduce you to the librarian that is what they are here for and further-
more, they are freshmen who themselves and can sympathize with you.
If you do not know the number of your room, it will be on the bulletin board in the Dean of Woman's, or in Mr. Morris, both of whom you will find in the Administration.
Then hunt up the freshman advisor or see the librarian.
You may have time in any case a few days after school to get settled.
GET SETTLED:
Having secured a room, get settled promptly. But remember that your head is very much greater than your body, and in case of the fact that you have come in fire with them, please understand that some-
one has to be there when the same place after you are gone and conduct yourself accordingly.
If you live in a dorm and turn the fire extinguisher knob, please be careful to turn it back. If you knock over the oil lamp, please turn off the oil. If you turn on the electric light, please turn off the switch. If you turn all the light off the furniture and other-
wise conduct yourself as if you didn't know the difference. If you break anything, please tell the librarian who is responsible to the room tenant in return. Don't make a noise during study hour. You might have no need to study that day, without interruption.
RULES FOR FRESHMEN MEN

These customs have grown up as a result of years of usage. They are few in number, but every first-year man should take pride in following them in spirit as well as in letter.

1. All freshmen must wear their little caps on the first Monday after registration. This rule applies to all men, those who have completed six months in residence and those who have not. The caps are to be worn at all times while in Oxford, except when sitting or arriving in town.

2. Freshmen must use the basketball courts on the campus of Oxford University. They may not play basketball on any other court.

3. Freshmen are expected to be present at all athletic events on the campus of Oxford University.

4. In addition to carrying their bags from the dorm, freshmen must also retrieve their bags in the gym. They will also be required to purchase a pass to enter the gym and purchase a pass to enter the athletics center.

5. Freshmen shall bring a date to any pep rally or University athletic event.

6. All legal freshmen fully accept the Oxford Rules for the Freshman class. This is the big game of the year at Oxford, because of the return of a great number of freshmen.

7. No freshman is allowed to wear a tam o' shanter or formal dress hat. This does not apply to any attending any of the formal events, such as fraternity dances or athletic events.

UNIVERSITY RULES

1. Smoking in any University building is forbidden. This does not apply to the campus of the Agricultural.

2. Any member of the student body who is convicted of a violation may be suspended or expelled from the University at the discretion of the President of the University.

3. Any organization wishing to use a University building must consult the University committee.
EIGHT ADVANTAGES OF AN OFF-COLOR STORY

1. It advertises a person's ignorance.
2. It displays a lack of sense of propriety.
3. It indicates an undependable state of moral character.
4. It presents a type that a person's better self is not in control.
5. It reveals the naivete of one's resources of entertainment.
6. It displays the correctness of one's philosophy.
7. It is the poorest sort of an excuse for
8. It removes no one that you are a good person to do business with.

FRESHMAN - SOPHOMORE WEEK

As in every college, the rivalry between the two lower classes is a time-honored custom at Miami. Active rivalry, except for voluntary, organized athletically events, the majority of these being directed against the first week of school. During this first week, men have a chance to prove themselves. A certain amount of imperious behavior there is.

Immediately after registration, the Freshman men organize for the week. They are assisted by members of Red Club, the sponsor of the week. They are assisted by the Sophomore class, the second highest class in the college. It is to supervise the events of the week. The Presidents choose a fight leader who is to lead the fight. The Sophomore class and class is to monitor the fights.

The Sophomore men are to keep track before Friday of the first week, but actually many an unhappy person of each class is deceased. One must be certain to attend the fight.

The day of the "Schmoo"

The Flag Book occurs at chapel once during the first week. The Sophomore men are the ones who are in attendance, and it is a very select group. These are approximately the first week of school to be attended by each class. They are given the privileges to do this, as the rank is stopped at the expiration of the first week.

Another feature of the days' pretenses is the "Schmoo" in the event by which the Sophomore members express their opinions of their first-year rivals. Parties are planned for the Sophomore class during the Sophomore of the week and various classes which surround them. Needless to say, these parties thrown are never social. Preparations of the first year men wear down
The annual Prashashik "Scrap" occurs every two years, and always on the first Friday of the month of March. The event starts with a grand parade of all the first-year students, who gather in the main quadrangle, where a number of "flags" representing various colleges are displayed. The "flags" are then flown, and the first-year students, dressed in their college colors, march in a traditional ceremony.

The "flags" are then placed on the field, and the students engage in a series of physical activities, such as tug-of-war, relay races, and other team competitions. The students are divided into groups, and each group competes against the other to win the "Scrap."

The day ends with a grand feast, where all the students and faculty gather to celebrate the achievements of the first-year students. The "Scrap" is a significant event in the life of a Prashashik student, and it is always eagerly anticipated by all the students.

FROM--SOPH YIELD DAY

The Prashashik field day always follows immediately after the annual "Scrap." During the morning, the two classes engage in a football game, a track meet, and other physical activities. The field day is organized by the Physical Education Department.

The highlight of the day is the "Tug," which takes place after the other activities. The team from the Freshmen class is always a favorite, and the crowds cheer them on. The "Tug" is a tug-of-war event, where the teams pull on opposite ends of a rope, trying to pull the other team over. The team that wins the "Tug" is declared the winner of the day.

The day ends with a grand feast, where all the students and faculty gather to celebrate the achievements of the Sophomore class.

Take pride in obeying all Maud traditions; but in spirit and in heart--To this regard them as neither choice or leal.

Don't attempt to conceal the fact that you are a Freshman. Be proud of it.
FRESHMAN LECTURE

All freshmen men and women who do not have a ticket to the colored prep. meeting may attend the Freshman Lecture. At this time either President Hansen or some other member of the administration will make some sort of address about how to make conserving Maine in particular and college life in general which should be known by every one. No credit is given for attendance.

THE HONOR SYSTEM

The Honor System is one of Maine's most cherished traditions. It is with pride that we can say that Maine men and women have been proud of and upholding it for years. The Honor System consists of three parts: fair play, justice, and a high standard of cheating in any form is not only hurting others but is also cheating upon the Honor System. A long series of men and women have built up the Honor System, and no other hand do. All is your power to help it in every way that we welcome you new Maine men and women.

Like need good memories.

It is a wise rule of women who will take a compliment and forget it.

THE LIBRARY

Mississ has a large and well equipped library. The Mississ Herald from once a year is published at the University. The library contains about 1,105 volumes. Library rules, which apply to all students, are as follows:

1. Books may be secured by signing for them at the desk in the reading room. A fine of 10 cents per day will be charged for books kept longer than the specified time.

2. Books may be kept for two weeks.

3. No books may be secured by title only. A call number must also be given.

Books may be returned at any time.

THE JOURNAL

The journal, which is published weekly, is the organ of the students at the University. The contents of the journal vary, but it generally contains news of interest to the students.

There are twenty-eight Greek-letter organiza-
tions at Mississ, thirteen fraternities and fifteen sororities. Each one of these organizations has their own house and handbooks, but the members of the sororities live and board in the University dormitories.

These societies operate strictly with

or without initiation has been em-

posed. The initiation always comes from

the organization, and is NEVER by appli-
cation.

Since making your choice of an organization, do not jump at the first bid you receive. Remember, it is your decision as to what society will best fit you. Don't rush into anything. It will be far better to choose the one that will best suit your individuality.

Ask yourself the following question:

1. Do the members of this organization have the right attitude toward the members of other similar societies?

2. Can you find a member of the society that I would like to join?

If you are financially able to join without embarrassment, you should make every effort to secure a place in one of the organizations that you have shown an interest in. Remember, you are the one who will profit the most from joining an organization. If you do not like the organization, you are not bound to join it. If you do not like the organization, you are not bound to join it.

The library is open on Sunday after-

noon from 2:30 until 4:30, but the doors are not open and no books may be with-

THE QUESTION

With the ideals and traditions of a good school to help you; and with the opportunities of modern life to the fullest extent, are you going to remain a drifter? Are you going to take advantage of every opportunity offered to you? Are you going to help to the best of your ability the others in your class? Are you going to make good use of your time? Are you going to make good use of the other people in the work which you do? Are you going to take advantage of every opportunity offered to you to work and help to the class? Are you going to get out of your four years at Misuri the best that you possibly can? The result is up to you.

Some girls can make up their faces more easily than their minds.

READ THE HANDBOOK

This handbook is printed for your con-
venience. Read all of it, especially the parts that have to do with rules and regu-
lations. You will be held responsible for them rules at school; ignorance of them will not be accepted as an excuse and many things here that
will make you feel better and unprepared-
ness if you do not understand them. The rest of us have had no lesson in regulations
before, but we think you by now have
they have not known how to get, to feel
at home and get down to work. We hope
you will do your share to make Misuri a
place of mutual benefit of Misuri and your-
self.

The person who lives on a bluff deserves a
good sharp.

Forget you come from any particular
gymnastics; you are a part of Misuri now.

Remember that Misuri is part of the Iowa
Great part to keep it so.
MIAU MARCH SONG

Miau! old, to thee our love we bring,
To thee our hearts and minds will ever cling.

The songs of other days, thy praises we raise;
Cull us today to sing our praise to thee.

Chorus

Love and honor to Miau!
Our college old and wise,
Presiding us, and ever kind, thou
Able, fair, firm, just, and true.

 Alma Mater, ever we praise thee, fair
And true, noble and kind for aye.

The day we made thee our home
forever and a day.

We praise thy name, thy halls of emure fame,
Thy grounds immortal, lovely and pure.

They-day, be our grateful homage bear.
To them do we our grateful homage bear.

I'm bound and see, our hearts will ever be
The trust, draven may our show to thee,
Our duty to be to our duty.
To guard thy name through all eternity.

Stand up when the Alma Mater is sung or played.
Miaml Student Government

Several years ago, a group of Student Government Association members
sought to establish an alternative body to the University's Board of Truste
This group believed that the Board's decision-making process was too slow
and that it was not responsive enough to the needs of the students. As a
result of these concerns, the Student Government Association (SGA) was
founded. The SGA acts as a representative body for the students, provid
the needs of the students, providing a platform for discussion and pr
problems that arise on campus.

Gym. Here the first year men have a chance to become acquainted, especially of the coached, President Rulph, and Mr. Bruce were features of the fascinating "flirt". Excit are served and a general good time is enjoyed by everyone there.

One week later, the T. M. and T. W. co-op in giving a party for all first year seniors. All the first year Seniors present, some even sitting in on the fire, seemed to enjoy the party very much. The Standing Room was not crowded, but every person seemed to be interested in the proceedings. Everyone present was interested in the game and it's excitement as well as what a first year man or woman needs.

During the fall, the Freshman netball team won several matches for the men their share. Sales and sports are farmed, to have a good time. Small social gatherings are held from time to time at the home of various members of the faculty with the purpose of breaking the ice, and having a good time. The usual social affairs are held on the last Friday night of the month. These are very popular and the students and women are their admirers.

The second semester is in full swing. The day is very busy for the girls, and the theam reminders and the desire and help of the faculty and students. On Saturday, the students and faculty accompanied the marching band to home in "Wells of Wells". A nominal admission was charged and the dance was well attended.

The discussion topics cover a wide range of interests and are designed to promote critical thinking and the exchange of ideas. They cover such topics as philosophy, literature, science, and current events.

TOWN SERVICE

This Department is under the supervision of the Faculty and President. The purpose of this department is to provide opportunities for students to engage in community service projects. These projects are designed to benefit the community and help students develop a sense of civic responsibility.

Projects have included volunteering at local hospitals, schools, and senior centers. Students have also worked on projects such as sprucing up parks and community gardens. These projects are often coordinated with local non-profit organizations.

The faculty is always looking for new ideas and ways to involve students in service projects. If you are interested in participating, please contact the faculty advisor.
STUDENT CONFERENCE

Members of the Y attend a number of Student Conferences during each school year and during the summer months. The conferences provide an opportunity to discuss common problems and concerns, and to build a support network among students across the state. The conferences are organized by the student leaders, and typically feature guest speakers who share their experiences and insights.

The Council meets twice or three times a year and the members discuss various issues and concerns. All the college Y's in the state are represented.

Last year, the Miami Y's conference was held at Oxford Hall in the year. These meetings are not only a help in maintaining a better relationship between the chapters throughout the school year, but they also provide a forum for discussing common issues and problems faced by the Y's. Regular meetings are being planned for this coming year.

FRESHMAN ADVISORY DEPARTMENT

Each Freshman is assigned to one upperclassman as his mentor. This upperclassman, preferably one in his senior year, should get to know the freshman personally and address him when necessary. He also corresponds with them during the school year. Freshmen are encouraged to feel free to talk to their upperclassman about any problem they may have or feel themselves strangers when they arrive in Oxford.

BROSE WORK DEPARTMENT

This department takes care of the practical work the students do in the direction of a group room, which is provided by the Oxford Community Chest.

WOMEN'S STUDENT GOVERNMENT AT MAMI

The Women's Student Government is an organization of all the Women of Miami, the purpose of which is to create a sense of unity and fellowship among the women, to stimulate interest in campus activities, and to provide various avenues of service to the entire college by placing on the indi
dividual student a personal responsibility for the proper conduct of all. It was organized in 1909 as the Junior Women's Student Government and consists of faculty, students, and alumnae of faculty in the traditions of the college and of honor in academic work, in athletic activities and social phases.

The Women's Student Government is a part of the general government for men and women expressed in the Student Senate, and has the same officers and duties.

Since these are, however, many special conditions which make excellently for the organization, it has been decided to separate the organization from the Student Senate.

The governing body of the Women's Student Government is known as the Women's Student Senate. This council is made up of the President and the Vice President, the Secretary and Treasurer, the President and the Vice President of the Junior Women's Student Government, the Secretary of the Senior Women's Student Government, and the President of the Sophomore Women's Student Government.

The council meets regularly in a separate body.

The amount of money received during the year, many of which comes with only very small contributions will be used for the support of the Christian Associations, and all other associated organizations, which may need assistance. The Student Credit Fund will be raised and administered under the name of the Student Credit.

Although this is a new thing at Miami, it has been tried and found successful in many other schools. Only one drive for funds will be made sometime in the near future. It will be done by the prominent members of the student body.

The people are no better than dead ones, and they take up more room.
And remember M.E. The four that
are simplest to fit some adaptation
are easier to keep up than to make up.
Intercollegiate Athletics

Miami's place in the ranks of Athletics is truly a high one. Although meeting with reverses during the first two or three weeks, Miami's football team has since maintained her supremacy, in track, and may be above the list mark in baseball.

A resume of the high lights of the past year points out one fact: time after time, Miami achievements are on the up-grade, not on the down-grade. A studious comparison of the individual records of the four years of athletics, followed by a re-evaluation of the Miami team shows an increasing percentage of superiority in the present year over the four years previous to the present year.

A fine record. Miami's football team, under the leadership of Coach Ferris, has contributed more than its fair share to the reputation of Miami. The Miami eleven will step out against St. Mary's and Western today, and this team which balked the Miami team last year, will serve as a barometer of the successful performance of the present team, and will show the strength of Miami for the coming year.

The big Red basketball team also had an victorious season as far as the winning games was concerned. A fine regular season was concluded by a loss in the Ohio Connie game.

In track, Miami has met with exceptional success, not only during the preseason meet but during the conference. Miami's track team in the season of 1925-26 was composed of 10 men, and of these requirements back in school this year, and a world of new material from the high school, composed of 12 men, and including three cupboard of speed and strength. It is anticipated that the Miami track team will have a fine season this year.

Although baseball does not stir up as much enthusiasm as do football and basketball, yet Miami's teams do not suffer because of it. After a close study of the Miami baseball team it is anticipated that another fine season will be enjoyed. At present time we have nine fine conference players and last year's players of the same 1925-26 team will again play. Miami will open at the Big Red on Friday, April 28, against Cincinnati.

The Miami track team has about 100 men which constitutes a strength that Miami has never before had to the best of our knowledge. It is anticipated that the Miami track team will do quite well at the Ohio Conference meet, and that the Miami track team will be able to challenge some of the teams in the conference.

The Miami tennis team is composed of 12 men, and of these requirements back in school this year, and a world of new material from the high school, composed of 12 men, and including three cupboard of speed and strength. It is anticipated that the Miami tennis team will have a fine season this year.

Intramural Athletics

Not many years back in the history of our college and in the memory of most living, the five principal teams of the university were established. This system of intramural athletics has gone a very long way in developing the athletic qualities of those who were engaged in these activities. The vast majority of these students were engaged in the different quadrants of the college and, in fact, it is admitted that only a few students received any physical or health benefits.

Especially during the intensive training periods of the year, the intercollegiate clubs work up the excellent results of a systematic practice. Training for the intercollegiate clubs is given special attention, and they are taught to keep their health in proper condition in order to develop the importance which the intercollegiate clubs possess.
Men were intensely interested in physical activities of all sorts. They played football, basketball, wrestling, etc. The morale of the design and training corps was kept high and the spirit of competition encouraged the development of the average soldier. His health and prestige in athletics, his sense of honor and his desire for action made him a better soldier. This very important system of athletics was expanded into our college a few years ago. Several of the men have shown considerable ability in athletics and have become national athletes. The intercollegiate program is divided into the three seasonal sports, fall, winter and spring. The fall season consists of all outdoor sports, little take the form of outdoor sports such as football, ruggers, baseball, tennis, etc. The winter season, however, consists of indoor sports such as basketball, bowling, wrestling, track and field. The spring season also contains the same sort of sports as the winter season, but the emphasis is placed on outdoor sports such as baseball, track and field. The intramurals club, mentioned earlier, exists in the same capacity as any other college intramural club. It exists to give the students the opportunity to participate in physical activities. It is an important part of college life, and every student is expected to participate in some athletic activity. As a whole, the intramural program is a great success.
record is carefully checked after the close of each season. Those who are found to be completely uninterested and the regular effort and devotion always made some thing to do during his leisure time. Usually the best results in the University are a long film taken in a spirit of cooperation and enthusiasm.

The spirit of hero worship exists in the campus, yet in no way does the desire to win ever destroy the true happenings, principles, or enthusiasm in the game. It is the spirit of cooperation that has made the games all the more interesting and some speak in the panes, win without too much expectation and lose without crying.

The Department of Intramural Athletics has received the entire support of the members of the faculty and students throughout the season and to the college coming to Miami University for the first time it extends a wel- come and a promise of a game, a game the players will always remember. The players are the heroes, all the heroes, all the heroes in the world, and the heroes in this country for we are the ones of participating. These games will not only be large divisors, yet those persons, yet those persons who go is the year for them to the world and for play design and good fellowship.
Women's Athletes

Athletics for Miami women are now approaching the high point set by the Men's Department. Coaches are making arrangements to engage larger and larger portions of the women here and are adopting an opportunity to participate in some form of athletics.

During the fall sports such as baseball, soccer, and field hockey are played and a schedule of Intramural games is played off between teams of various clubs, fraternities, and sororities.

Basketball is the big sport during the winter season. Both inter-collegiate and intramural games are played, each being held at Miami and a couple of these games are played at the Blue and White by the various organizations.

Spring sports include baseball, track and field. An interscholar grade meet is held during May, and inter-collegiate baseball games are played.

Chances to gain special merit by means of making special courses in Physical Education are made, and the students may enroll in the course necessary for the physical education requirement in the department.

Remember that "voluntarios" is not a synonym for "woman."

RECREO

At the close of each academic year an annual masque is performed on the campus. This annual masque is known as the Recreo. Each June, the seniors and their friends are entertained by a masque that has been specially written by some senior and performed by the members of the Senior class. The masque is usually performed on the last evening of the senior year.

Each senior is given the opportunity to participate in the masque, either as an actor or as a member of the crew. The masque is a popular event and is enjoyed by both students and faculty.

The masque is directed by a committee of seniors and faculty. The committee is responsible for the planning and execution of the masque, including the selection of the script, the selection of the cast, and the rehearsal and performance of the masque.

The masque is a celebration of the senior year and is a tradition that celebrates the end of the academic year and the beginning of the next.
