EDITORS FOREWORD

Believing that the work done last year by the "M" Room Staff to be very satisfactory and with few excrescences to be improved upon we send the staff of the "M" Book of 1926-27 do send this book to press. The generosity of the campus organizations listed in another part of this book and the advertising has made this book possible. We wish to thank them and hope that they may be well rewarded.

This book is a guide to the incoming students and the republic to those who have already become acclimatized with the customs and conditions of college. We hope that it will meet with your approval and that it will accomplish the purpose for which it is published.

ALFRED P. PORTER, Editor
THE PRESIDENT'S GREETING

To New Students entering Miami University.

It gives me great pleasure to extend through this booklet a word of greeting to the men and women who are coming for the first time to the halls of Miami University. I wish for you the same success, happiness and success in your career at Miami which many of us have enjoyed here. I hope that you will find the old college a pleasant place to work, that you will want to come back here, and that you will come to love the glee and works of her campus, and that you will find satisfying in her these people to develop you, the strongest personal one which lies within you.

Miami has had a long story, noble men and women have gone out from her halls, great opportunities await those who take advantage of their privileges upon her campus.

R. M. HUGHES.
Old Miami

(Alma Mater)

Old Miami, from thy hill crown
Thou hast watched the decades roll.
While thy name has quaked from thee
Steady hearted, pure of soul.

Old Miami! New Miami!
Days of old and days to be
Wear the story of thy glory,
Our Miami, here's to thee.

Aging is thy simple operation,
Then the suns and stars the spheres.
Thus didst give them joy to conquer,
Ere by the wind their station held, thee.

Then shall stand a constant beacon
Of these towers against the sky,
Men shall ever seek thy pedestal
Purer like thee shall never die.
History of Miami University

Six years after the acceptance of Ohio as a state, the State Legislature of 1819 provided for the establishment of Miami University at Oxford, a village between Dayton and Cincinnati.

Miami was little more than an academy until 1834, when the arrival of Bishop Hamilton Bishop were assured and the school was raised to the dignity of a University. About this time the two literary societies, the Kedakphila and the Miami Dilettante, were founded, and the struggles and vicissitudes of the two societies finally resulted in the formation of the Greek-letter organizations Beta Theta Pi, Phi Delta Theta, and Sigma Chi.

Until the time of the Civil War, Miami increased rapidly in size and prestige. It was during this period that she came to be known as "The Yele of the West," and credits received from Miami were recognized in all the leading universities of America. But the coming of the Civil War marked the beginning of a dark period in Miami History. Many of the students joined the armies of the North and the South so that the attendance was greatly curtailed. After the war there were no funds available for the continuation of the university, and in 1872 the school was closed.

In 1881 the University reopened under the leadership of President McFarland. From this time on the rise of the school was rapid and without interruption. In 1897 women were allowed to enter the College of Liberal Arts for the first time. In 1911 the Teachers College was added, offering a thorough course for prospective grade-school teachers. The Bachelor of Science in Education courses for those wishing to prepare for teaching in high schools were added in 1914.

Today Miami stands as one of the best equipped universities in the Middle West. Nine new buildings of additions to buildings have been added in the past four years at an approximate cost of $1,199,000. Considerable additions are being made to the faculty each year in order to keep up classes small and maintain a closer connection between the teacher and student.
THE ADVISORY SYSTEM

In order to facilitate the handling of all students with the least amount of trouble for any one member of the faculty, the men and women of the three colleges have been divided into Advisory Divisions. In this way, much work which would otherwise fall on two or three people is distributed over a number. Each man and woman is assigned to an adviser who advises him concerning his course and is whom he presents all excuses to absentees, etc. The divisions are as follows:

College of Liberal Arts: First Division, men, Dean Braddock; Second Division, men, Mr. Norris; Third Division, women, Miss Emerson; Fourth Division, women, Professor K. B. Todd

School of Science: First Division, men, half of B. S. classes, Professor McKee; Second Division, one-half of B. S. classes, Dr. French; Third Division, Women, Science and Musical Arts, Professor Wells; Fourth Division, Music, Professor Martin.
WHAT A FRESHMAN
OUGHT TO KNOW.
When you arrive to practice, whether by train or bus, you will find a Y. W. or Y. M. C. A. representative waiting on you. He or she will assist you in getting settled. If you have any questions, do not be afraid to ask. Keep in mind that they are here to help. Furthermore, they are freshmen once themselves and can sympathize with you.

GET SETTLED

Having secured a room, get settled promptly. But remember that your health, not the University, has some few rights. In spite of the fact that you have come to live with them, please remember that everyone will have to die in the same room you are in. Therefore it is wise to be prompt and self-sufficient.

School is a state school and therefore helps to support. When you do not in your room and you see the one who has to buy. Expenses are levied upon any student or group of students who fail to follow the property of Miami University.
RULES FOR FRESHMAN MEN

These custom have grown up as a re- sult of years of usage. They are few in number, but every first year man should take pride in following them in spirit as well as in letter.

This rule applies to all ex- cept those who have already settled in the city and are living in rooms furnished by their parents. They are also to be worn between lecture- rooms and during the various holidays be- fore the Spring Exam, while in Oxford.

FRESHMEN FIELD DAY

This Freshman Field Day has been held
on the Field Station. During the afternoon
the two classes engaged in a baseball game
for the 30's, and several other events
enormous at the Freshman Intramural De-
partment.

The five best hour drivers of the 30's
were represented in the team that faced
the hour drivers of the 29's in a football
field. A series of events was given to the
winners of each event, the title receiving
the highest number of points being de-
clared the winner of the day.

The week will also be busy with Friday
and Saturday afternoon and evening. The
calender of these events will be pub-
lished briefly for your notice.

This week in chaying all Minor trad-
tions looks in spirit and in letter to dis-
regard those in neither style nor begun.

Don't forget to compose the fact that
you are a Freshman. We proud of it.

THE HOUSE SYSTEM

We be pleased to find a rule without the
restraints of our house. We show what
Mai iiots the House System.

The House System is one of Miami's
most cherished traditions. It is with pride
that we can point to it. The idea of the
house in the American education system
is to foster a more intimate group spirit or
be better. It is the springboard of the
principles on which Miami stands;
and if it lives and prospers, there is little
likelihood of our Miami students being
content with a system of the type that
is our life. We suggest that the system
be dropped in for further improvement
and the bills upon the most trusted and
cheerful. Many would point to the
1940's, with its two terms in the House
System.

It is a wise man or woman who will
not only be found.

Liberals good measure.

It is a wise man who will
MEMORANDUM

GREEK-Letter SOCIETIES

There are thirty Greek-letter organizations in Miami: Fraternity and sorority, and roman numerals. Each of these organizations has a unique character. The experience of the fraternity or sorority will be one of the highlights of your social life and the University community.

There will be no discussion of fraternities and sororities with freshmen by upper-class students prior to the spring term. The purpose of the fraternities is to provide opportunities for you to join an organization during Freshman week.

Choosing the organization that is right for you comes from the organization, and not from your friends. In making your choice of an organization, do not jump at the first one you receive. The fraternities and sororities you consider will depend much upon your social habits and whether the organization will be consistent with your standard of living. If you are not satisfied with the organization you have, you may change your organization.

Once you have selected the fraternities and sororities you wish to join, you will be asked to join during Freshman week.

The most important factor in choosing an organization is the right attitude toward the members of the organization. Are you ready to be a part of the organization? Are you willing to make a commitment to the organization? Are you ready to make a commitment to the organization?

The most important factors in choosing an organization are the following:

1. Are the principles you are applying to your social life present in your organization?

2. Is the organization consistent with your standards of living?

3. Are you financially able to join the organization?

Will you be able to make the financial contribution of joining the organization?
THE LIBRARY

does not depend primarily on whether or not one is a member of a minority. Metro has a large and well-equipped library. The main reading room is

first floor of the building and contains about 35,000 volumes with a reading area about 150. In all, the library contains about 100,000 volumes.

Library rules which apply to all students and, if needed, will vary from student to student.

1. Books may be secured by signing for

them at the desk in the rules. A fine

of $0.25 per day will be charged for

books kept longer than the specified
time.

2. Books may be kept for two

weeks.

3. A card-index of all volumes is pre-

pared. The card-index by title and author. Books can be called by the number only.

4. A demand to the student may be ob-

tained by permission of the librarian. In

cases where the card-index is not avail-

able, the request can be sent to the

librarian.

5. The number of volumes may be

obtained at the desk.

6. Books may be obtained at the desk.

7. Books may not be removed from

the library except at the discretion of

the librarian.

8. Books may not be taken from the

library after the close of business. The

evening may be closed until Monday

morning at 10:00.

9. Two non-consecutive hours for the

first two hours, from 9:00 to 11:00 after the first two, if allowed on every reserve book kept after the time stipula-

ted.

The library is open on Sunday after-
noon from 2:30 until 4:00, but the books

are not open and no books may be with-
drawn.

The Question
With the ideals and traditions of a great school to help you and with the chance to face a part in school life to the fullest extent, are you going to remain a filler? Are you going to be content to "play" to let the other people do the work while you look on? Or are you going to take advantage of every opportunity offered you to work and help in the interest of your ability? What you will get out of your four years at M.I.T. will be measured by just what you expend in hard work during that time. The result is up to you.

Every man can make it if he really wants to get a decent grade in the subject. Don't cut unnecessarily.

Some girls can make up in their faces more easily than their minds.

This handbook is printed for your con- 
venience. Read all of it, especially the 
parts that have to do with rules and regu-
lations, customs and traditions. You will 
be held responsible for those rules at 
school; ignorance of them will not be ac-
cepted as an excuse.

There are a good many things here that 
will save you much bother and unpleas-
tance if you note them carefully. The rest 
of us have had to learn by experience. 
Many have had to learn school because 
they have not known how to get to feel at 
terms and get down to work. We hope 
that you will profit by these suggestions 
to the mutual benefit of Miami and your-
self.

The person who lives on a bluff deserves 
a good shove.

Remember that Miami stands at the 
head of athletic events in the first rank. Do 
your part to keep it so.

MIAMI MARCH SONG

Miami, oh, to thee our love we bring, 
To thee our hearts and hands we will ever 
in.
'Thy stars of other days, thy gifts of old,
Call us today to sing our praise to thee.'

Chorus

Love and honor to Miami,
Our college old and great;
Fondly we shall ever hold thee,
Over all the land;
Alma Mater now we praise thee,
Ring, ring, ring our shouting day,
Love and honor to Miami
Forever and a day.

Chorus

Oh, thou, oh, thou, the glory of our land,
Oh, thou, oh, thou, the glory of the land,
Oh, thou, oh, thou, the glory of the land
Our Alma Mater, let us shout with joy,
Let us shout with joy,
Let us shout with joy,
In joy, in joy, in joy,
Love and honor to Miami,
Love and honor to Miami,
Love and honor to Miami.
MIAMI STUDENT GOVERNMENT

Several years ago, a form of student government was instituted in Miami. This constitution, at the time, has proved itself a success in many ways. However, as the constitution which now exists has failed to provide adequate care of the problems of an ever-expanding student body, a new constitution was drafted last spring. This constitution as printed here, was first passed by the student body, and now awaits the approval of the faculty.

Y.M.C.A.

The Y. M. C. A. at Lake Geneva is an organization of the purpose of winning a closer relationship between the world's things of life and the men of the city. The Lake Geneva Executive Board consists of ten members of the faculty and students elected who represent the general policy of the Association. In addition to the Executive Board which directs the general policy of the Y. M. C. A. are the rules and regulations of this organization, and also the General Secretary, Mr. Henry Dyer.

PURPOSE OF THE Y. M. C. A.

1. To promote a positive moral and religious life.

2. To create and develop the character of the individual, and to develop the characteristics of the student, and to emphasize the importance of character in extending the Kingdom of God throughout the world.

THE GENERAL SECRETARY

Mr. Henry Dyer, who is a member of the faculty, is the General Secretary, and has been in charge since the fall of 1898. He is a graduate of Ohio State University, where he also served as assistant secretary for some time. During the last year he was in charge of the work in the Eastern States, having charge of all of the active Y. M. C. A. work in the States, and as such a secretary, and much of the progress during the past two years is due to his efforts.
FRESHMAN CABINET

The Freshman Cabinet is composed of ten from the first year class. During the fall they cooperated with the upper class students in planning social and athletic activities. In the spring they prepared for the freshman mixer and assisted several speakers for freshman talks. They plan the upper cabinet with the financial assistance of the freshmen and are paid for their effort. All of them are selected by the student body and are elected for two terms after election. Most of the line in this cabinet consists of boys. Most of them are good at sports and are trained for that purpose in view.

Any fail can stay up all night, but it takes a good man to get up in the morning.

CAMPUSSERVICE

The Department of the Y takes care of the incoming new students during the first few days of school. All rooms are arranged through the student association. The Y helps the student in his transition from home to college and later in the year it helps with social events, recreation, connection of the athletic clubs and publicity.

CONFERENCES

Conferences with various speakers are arranged through the Freshman Cabinet. Speakers from different fields are chosen according to the programs of the speakers committee of Mount Veley.

PERUITYDEPARTMENT

During the year, the Perusity Department has charge of the advertising of all arrangements and in charge is the public outlet, so that these students who do not attend will be able to see them. After the conference they have a sign on the campus to direct the students to important points on the campus.
THE EXTENSION TEAM

This is an organization composed of members of the Y. M. C. A. athletic staff interested in the work of the Y. The team conducts service in the quarters of the university, in the school for the deaf, and the villages of county superintendents.

THE SOCIAL DEPARTMENT

During the fall, the Y. M. C. A. conducts a social event every week. The first of these is the First Friday night event. Here in the first year men have a chance to become acquainted, and members of the second year are introduced to the new members. Every Thursday night the members of the second year are invited to attend this event, and it has been a great success. A second social event is the Second Friday night event, which is held on the second Friday of each month. This event is open to all members of the Y. M. C. A. and is a great way to meet new people and get to know each other better. The third social event is the Third Friday night event, which is held on the third Friday of each month. This event is open to all members of the Y. M. C. A. and is a great way to meet new people and get to know each other better. The fourth social event is the Fourth Friday night event, which is held on the fourth Friday of each month. This event is open to all members of the Y. M. C. A. and is a great way to meet new people and get to know each other better.

THE FOOTBALL RENDEZVOUS

The Football Rendezvous, which is managed by the Y. M. C. A., is given each year by the football team. The purpose of this event is to give the players and spectators an opportunity to socialize and enjoy each other's company. The evening begins with a reception, where guests are welcome to mix and mingle and enjoy refreshments. Following the reception, the football team will be highlighted, and there will be a game of touch football. The evening will conclude with a buffet dinner, where guests can enjoy a meal and continue to socialize. The Football Rendezvous is a great way for the football team to give back to the community and to provide a fun and enjoyable evening for all who attend.

STUDENT CREST:
Several years ago separate campaigns for funds were launched by each of the Christian Associations and by any other literary or altruistic organizations, which was confusing the minds of many of us. But with the help of the Faculty Committee, the Student Body, and the Alumni Association, we have succeeded in raising the funds necessary for the maintenance of the Christian Association and all other altruistic organizations which may need money during the course of the academic year. The funds are contributed in the name of the Student Body.

Last year this system was tried and proved successful as the Miami campus. Only one drive for funds will be made sometime in October. The portion of the money raised will go to the benefactors of the College, the Alumni Association, the faculty members, and prominent members of the student body.

Late people are no better than dead ones, and they take up more room.
Intercollegiate Athletics

Men's box this year rendered far activer positive as one of the strongest schools in the state in athletics as well as scholastic standing. With a winning football team and conference championships in track, bowling, and tennis, the freshman football team also had a season that will be long remembered.

The football team of 1925 did not win the conference title, but nevertheless finished the season with a record of five victories and three losses, better than in any previous season. A record that any veteran would be justly proud.

The high lights of the season were the victories over the powerhouse-minded Wisconsin and the most exciting thirty-three to thirty-nine thrashing completed against the (Cincinnati) Democrats in the last game of the year.

The men's track team also did their share, winning one meet to be a serious for next year, until good material available from the 100 freshmen squad. The men's bowling team also posted the year's high scores and played for even higher honors in the season of 1926.

The court team ordered many reverses when playing away from home, but made a run of six points and ten losses. The last day of the season saw the men placed on the home floor. Through the team could not be considered of championship caliber, it must be remembered that only one senior was left from the previous season and the conditions were at very small in stature—three men as wide having probably the smallest that has ever represented Amherst
in the court game. The combination of the two, Spradlin and Kuske, is not new having won several occasions. Prospects for next year look very bright, however, for the boys have plenty of high school material and are also seeking an experienced group of senior veterans. Several members of the Fresh fire took off though there will be a real battle for a Varsity position when the call for candidates is forced in January.

Spradlin and the young men from the senior class have recently returned from a trip to Ohio where they won a score of 23-14 and gave a display of the finest players of their school. Steve Buchman captured two marquee positions in the winter show.

In spring sports, the Big Red were an outstanding portion. Two teamsExcellent Ohio University, Oberlin and Cincinnati in match competition. In the dual meets of the season, and then stepped out and amazed both the Warren A. J. and Big Red team, those with added backsides in this most brilliant of track campaigns. Tom Sharkey, the University star, set a new mark in the 880 Yards and a new mark in the 220 Yards, that in the 220 yards under the very strong emphasis. Wester, Wagner, Miller and the relay team all set new records. Steckley was perhaps the most brilliant performer that Peter Tho, various have ever seen in the history of track. He has set the World record of 9.4 seconds in the 100 Yards dash, and averaging the Ohio record in the 220 Yards dash. He is the only man in the world to average under 37 seconds. Close on Sharkey's home fellow in Emery. Emery's point, or team, record in both the mile and mile and a half race, being defeated only once during the season. His record for the mile was 4:20 flat, and for the mile and a half, 6:20.5. The fastest mile run in Ohio. The performance of the team was certainly well sustained, setting a record of 1:44.8 in the 400 Yards, and the other scoring their stuff evenly as well as in their events. The whole, team was a huge success, and their season was a most successful season. Editors should not repeat.

In baseball, Miami's representatives were as successful as their stars on the track team. The Big Red were placed at the first place in the final game, and one defeat, the outcome being an early season one at the hands of Ohio University which was wiped out when the Big Red met again later in the season. The Big Red also entered the Ohio League and were placed in the second place. The season will be a true one for the team and they will be a team to be reckoned with.

Not only did those returners yours to wipe off the memory of the defeats in basketball and wrestling, but they won the Buckeye Trophy for Miami. The team was also in the running for the Ohio League championship, but the season was cut short by the outbreak of the flu. The season was a true one for the team and they will be a team to be reckoned with.

Intramural Athletics

Not many years back in the history of our colleges and in the memory of most of us, there was but one system of athletics in the average city college and university. This system of intercollegiate athletics took care of a few Oswegoed and highly specialized athletes. Large sums of money were expended each year in the different branches of intercollegiate sport. Out of this costly system of athletics only a very few students received any physical or body-building benefit.

Especially during the inter-war period of the War did well-organized and organized games become a part of the college athletic training for the average individual. Large groups of men were taught values of different sports and variety, and they in turn taught many other men. Organized play took on an importance which the high school officials seldom used.
Men were intensely interested in physical exercise (offered to them by the method of physical control), that its value to the community and to the individual was apparent. The idea of the campus and the assembling center was that on a higher level of light there was development of the average soldier. His training and practice in athletics, his ideas of fair play, his desire for action made him a better soldier.

This desire to develop the type of athlete that was interested into our college a few years ago, and as the present time most of the universities and colleges are making Intramural Athletics a feature of their campus activities.

Here at Miami University the intramural program is divided into the three seasonal periods, Fall, Winter, and Spring. During the fall season the emphasis is placed on the form of outdoor sport, such as soccer, volleyball, and wrestling. The winter season is spent in the form of inside sport, such as basketball, bowling, and wrestling. The spring season, which is always filled with tennis players.

It would take too long to give a detailed description of our system of Intramural Sports. However, it should be stated that Miami University is anxious to see other colleges in the near future be interested in Intramural Athletics.
Every student is expected to participate in some athletic activity. An individual record is carefully checked after the close of each season. There is no penalty for not participating and the regular student and booster always finds something to do during his leisure time. Usually the best students in the University have a keen interest and take an important part in interscholastics.

The spirit of keen rivalry exists on the campus, yet no way does the desire to win overstep the fine principles upon which interscholastic athletics are based; everybody out and in the game all the time, fair play, clean habits and clean speech in the game, win without too much excitation and lose without crying.

The Department of Intramural Athletics has the entire support of the members of the Faculty as well as the student body, and to the student coming to Miami University for the first time it extends a welcome and offers to you any number of chances in its company for only the cost of participating. These chances will pay large dividends as you while you are a student on the Miami campus in the way of health, enthusiasm for your college, and good fellowship.
Athletics for Minne women are now 4\-
pronounced the high place set by the Man's
intercollegial Organization. As a result, a
number of higher percentages of the cellar
university lists are appended to the upper-
triplets in some sport.

During the fall, sports such as football,
woman, and croquet are played while in
spring sports like baseball, basketball, and
archery are added. All sports are included in
the university's athletic program.

Remember: this "cliche" is not a
synonym for "patron."
