FOREWORD

To you, the class of 1936, we dedicate
this book, hoping that in some manner
way it may help you to become ac-
novated with Miami, its library, tradi-
ions, and its alumni. It is being offered
late you on your selections of Miami as
your Alma Mater and sincerely trust
that you will live up to the honor and
fame of those who have gone before you.

Since this book is intended mainly as
a guide to you in helping you to be-
come acquainted with Miami during
your first few weeks here, we have at-
tempts to suggest some infor-
arily in the editing of this book.
Special emphasis has been laid on these
features so that you may become familiar
immediately if you wish to fit into the
life at Miami.

A book such as this should, however,
be of use to the student body at large,
and with this in mind we have
included also such features as we be-
lieve will be of interest to any student at
all times of the year.

THE STAFF.
To the new students:

We welcome you happily to share in another year of the rich and abundant life of Old Miamis. For more than a century young people have been coming to Miami, as you have come, to live a life beyond the campus. To understand them, as we hope you will, you will have gained a knowledge of the purposes that have made them conspicuous examples of good citizenship and public service.

Here at Miami are superior facilities for learning, which are not to be treated lightly. This is your period of oppor-
tunity for training your mind and heart to be

shaping agents in the world. Nearly two hundred teaching scholars around you, the fine buildings, the splendid library, the modern athletic plants, and the maxim that modestly among studied sports—these are privileges of lasting value which you will appreciate more fully as life goes on.

At the same time, as on every cam-

puse, there is plenty of recreation for

an exercise of your will. You are em-

bracing the very purpose for which

the state has taxed itself and for which

your parents have spent. They are all exercise, not food and

enjoy. Be worth while in your life among

ours.

Cordially yours, A. H. Upsham.
Old Miami

( Alma Mater )

Old Miami, from the hill crest
They hast watched the decades roll
While thy sons have served, true and true
Proudly, loyal, pure of soul.

Days of old and days to be
Weave the story of thy glory.

Oh, dear alma mater, dear to me
Acting on the simple notion
Then the value and then the storm
How didst give them joy and content.
Strength from thee sustained their soul.

Thou shalt stand a constant beacon
Clydes bowers against the sky
Mon shall ever seek thy shadow,
Power like thine shall cover thee.

Miami March Song

Miami old, to thee our love we bring
To thee our hearts and minds will ever cling
The home of other days, thy graces we find
Call of today to sing our praise to.

Chorus
Love and honor to Miami
Love and honor to Miami.
Love and honor to Miami.

Over all the land
Alma Mater we'll do praise thee
Praise thee till the day
Love and honor to Miami
Forever and a day.

Thy eyes, thy hills, thy skies of azure blue
To them we do not inspiration give
The eagle's voice upon the hilltop
To them we do our grateful homage pay.

Oh land and sea our hearts will ever be
The truest, bravest man can show to
Our dear, dear in our loyalty
To guard thy name through all eternity.
SCALP SONG

Yah! Yah! Yah! Yah!

In the word "war!"
The tribes go forth to war.
Their scalp-songs ring:

Bright the blood-red camp-fires gleam."

Mid this fire throb the war-hawks scream:
Smoke smokes snow high.

Backbone in the sky,
Old man asleep there in the ashes.

Matron sobbing, war-drums throbbing.

WARRIORS: victory and the conquest,
Calm the rest among the slain.

Burn the village, village of enemies.
Seek the fruit, despise the pain.

Watch, watch a minute,

Prairie wide their hosts in scattered
Speaks are broken, shields are battered;

Rise them, chain them, pound them, sound them, Word!

HARRISON HALL

"Old Main" has seen generations of students pass through the portals of Miami, but shared in their joys and sorrows, has passed through the years.

The cornerstone of the present building was laid on May 2, 1886, and the building was dedicated May 2, 1888. The second story was added in 1890. The tower was completed in 1891 when the east wing was added.

HISTORY OF MIAMI UNIVERSITY

Miami University was the second institution of higher learning established in the state of Ohio. It was created by the Ohio General Assembly on March 31, 1809, under the Federal Land Grant by act of the Ohio Legislature in 1819. One year was spent in the preparation of the first class which was enrolled at the village of Oxford, in the center of the township set aside for educational purposes.

Because of the lack of sufficient funds, the plan was abandoned, and the school was moved to the village of Oxford. In the fall of 1829, the school was opened as a college.

The first building was raised in the borough of Oxford. The first two dormitories and the Miami Union were opened, and the church and a new college were erected. The building was dedicated in 1830.

The Miami Band, the formation of the Miami Wind, and the Miami Little Theatricals, Beta Theta Pi, Phi Delta Theta, Sigma Chi.

Until the time of the Civil War, Miami continued rapidly. In 1862, the University was given a charter of incorporation.

The first building was completed in 1865, and the second story was added in 1890. The tower was completed in 1891 when the east wing was added.

The Miami Band, the Miami Wind, and the Miami Little Theatricals, Beta Theta Pi, Phi Delta Theta, Sigma Chi.
University, and in 1872 the school was closed.

In 1870 the University was reopened with the leadership of President Mc-

Farland. From this time on the size of the school was rapidly and without inter-

ruption increased, especially for men and women.

In 1874 the University entered the Women's College in high school for the first time.

In 1883 the School of Education was established offering a thorough course for those wishing to prepare for teaching in high schools.

In 1896 the Trustee of Miami Un-

iversity voted to establish a School of Business Administration, with courses leading to a Bachelor of Science in Business. The formal open-

ing of the Business School occurred in 1897.

The School of Fine Arts was estab-

lished by action of the Board of Trust-

ees in December 1893 and inaugurated with the opening of the following year.

The School of Music was established in 1895.

A College of Education was made up of three departments offering the degrees of Bachelor of Science, Bachelor of Arts, and Bachelor of Science.

THE ADVISORY SYSTEM

2. Drinking of intoxicating liquors of any kind is punishable by expulsion.

The rule which prohibits the possession of an auto in Oxford during the academic year is not without exceptions: in the case of students who have serious disabilities, injuries, or safety to the student. In fact, not only the faculty, but also a large part of the student body consider it a very desirable reg.

In the first place an auto is not necessary for transportation within the city. During the week, one can walk or take the bus to almost anywhere in the town. However, there is considerable discomfort in bus travel, especially since the average distance is about three blocks. In such circumstances, an auto would be a convenient means of transportation.

But besides that, the possession of an auto usually has a disciplinary impac. Countless students have been penalized for forming a sense of interest which is ei-

sidered with the same purpose of the University. This, together with the ever growing number of accidents which have contribut to the overall accident rate, is reflected in a higher standard of academic achievement.
MIAMI STUDENT GOVERNMENT

Three years ago, because of a general dissatisfaction with the existing form of government, a group of student affairs, a series of group meetings of faculty and students were held to discuss and draw up a new form of government for students. The new form of government was approved by the student body and became effective on the recommendation of the faculty. The only part of the Constitution which failed to meet the approval of the University faculty was the provision that elections for students' council officer positions be stricken from the Constitution at a special meeting.

WOMEN'S STUDENT GOVERNMENT

When the old form of student government at Miami was abolished, the Women's Student Government was established to take its place. It is the purpose of this organization to create a sense of unity and fellowship among the women, to promote and maintain high standards of student conduct, and to provide a forum for the expression of the collective views of all the women of Miami University on any matters of student interest, not falling under the jurisdiction of the Faculty.

It is felt that the best results are obtained for the entire college by placing in the hands of a central organization the control of student affairs over the entire campus as a means of loyalty to the traditions of the college, a sense of responsibility in the work, and in athletic activities.

The members of the council are the women of the women's college, plus students from the women's medicinal, music and art, and the Women's Disciplinary Board, not already members of the Student Senate. The council is composed of six members, six members with the chairman of the hall and cottage presidents, presidents of the different classes, the W. S. C. A.'s, the W. S. A.'s, and in addition in each hall or cottage section with all the women's interests of the University.
Since the life of students at a campus must conform to the requirements of the University and to some Miami standards, living quarters, and regulations, these standards are outlined in the following terms of behavior which apply equally to all Miami women. If you find in your cottage or roommates at odds with the standards given below, you are not alone. Every student has some standard of behavior, and before and after a visit, a few words of memory are needed.

**Money Life**

Quiet: Evening study hours. Quiet: Absolutely between 10:30 P.M. and 7:30 A.M.
Closing hour: 10 o'clock on all nights except Wednesday, 11 o'clock on Saturday.

**Guests**—Guests are expected to abide by the standards of form and dress of Miami women. Guests, including girls coming in the evening, must be given the right to enter, name of her home and room number.

**Signing Out**—All students shall not be allowed to leave or enter the dormitory for any reason at any time during day or evening.

**Social Life**

Social hours are considered at week-ends. On Friday evenings, Saturday, and Sunday. Keils are served not to use evening hours during the week, except for emergency errands to buy, and before and after a visit, a few words of memory are needed.

**Supercilious Students**—The privileges of certain students of students may be suspended for social hour by the standards of students who live in the dormitory and students who live in the dormitory, and before and after a visit, a few words of memory are needed.

**Procedures**—Procedures for the purpose of establishing good standards are conducted in their dormitory by the standards of students who live in the dormitory. In any case that does not conform take one additional mid-week date.

**Dance**—It is a rule of the University that students do not not arrive within during their residence in college. Allowing dates are therefore subject to the administration. Permission for any event is given by the heads of the house.

**Dresses**—All women attending dances, whether formal or informal, must go to their own costumes and in the dress immediately after the close of the dance. If it is expected that dances will be used springing the dance, but not after close of dances.
Absence from Oxford.—Women may leave Oxford only with permission of heads of halls, except for short shopping trips, which involve no social plans. Requests for overnight trips must be submitted in writing. Parents must be notified when the student’s new home must be accompanied by a letter from parents specifying the arrangements. Female students admitted to the trip, the fact must be specified in the parents’ permission.

Smoking.—Miami women are not permitted to smoke on the campus or in places under the direction of the University.

"Humming".—"Humming" rides to and from Oxford is forbidden.

Chaperonage.—Approved chaperonage is required for all gatherings, dinners, or excursions for any purpose whatsoever at a men’s chapter house or dormitory.

Swimming.—There are no adequate facilities for outdoor swimming, and women are not encouraged to swim.

Pirates—Report group picnics with men to women’s houses. Report individual plans to head of hall.

All Miami women are asked to conduct themselves in such a way as not to reflect discredit upon the standards of Miami University.
Forget that you came from any particular high school. You are a Miami man now.

Keep an eye on your studies; they merit some consideration.

Get acquainted with your professors. They are a fine bunch of fellows.

Do all the good you can and keep the knowledge of it under your own hat.

Do not smoke in University buildings. It's dangerous.

Take off your hat when "Old Miami" is using.

Do all your work on week days. If A's, no Friday, Saturday, or Sunday.

Go to "A's" and "A's" at all. Go home before 10-30.

Keep quiet about your high school record. If they ask you about it, they are known already. Do not quarrel with the student publications. They are for some activity, and stay out.

Be a mixer and a credit to the University.

Learn the songs and yells and join in the rookery.

Go to assemblies.

Go to class meetings and mix in class affairs.

Read this book through and follow its suggestions.

24

GET SETTLED

Harvices assured a room. Get settled promptly. But remember that your faculty, or the University, has some few sins against all sorts of the flesh that no man can help. Remember this, and we will have to live in the same room, after they have gone, and conduct yourself accordingly.

Miami is a state school and the office staff supported. You are a part of the state and therefore help to support it. The office will settle the room. If you are successful, the use who has to pay, will always be levied upon any student or group of students who in any way infringe the property of Miami University.

NEW STUDENTS

When you arrive in town, whether by train, plane, or boat, you will find a Y. M. C. A. or Y. W. C. A. for your comfort. You will be met by a representative of the University, or some such person as will answer the roll, and ask questions, that is what they are for. Furthermore, they will freshen and teach themselves and expatriate you.

There will be the number of your room. Women should go immediately to the Dean of Women, and men to the Dean of Men. Their office is in the second floor of the old Administration Building, and is marked on the campus map. You will find it in Brown Hall, and arrange for your room. Then make up the opposite, spin and have your trunk delivered as soon as possible. You may soon be moved, so you must have time to pay much attention to it for a week afterwards, and a careful packing from is a great panacea for housekeepers.

35
WHAT TO BRING

When you start packing up to come to Miami, the following suggestions might be of some value in selecting any requisite material: Raincoats, hats, shoes, gloves, and saddle-cars are provided by the University and inquired for by the student service. A very change is made at the beginning of the year, in July, the second for changing the room of any student.

Women are required to bring their own sheets, blankets, and pillowcases. They are also expected to take care of cleaning their own rooms.

Miami is not essentially a fancy dress school. Girl students come to the University of the world for the first time. Shawl-ash, a heavy sweater, and high shoers are worn a great deal of the time. Bring what you are accustomed to at home. No one is going to think you strange at the time of the height of fashion. You are an student in study and not to learn the fashions about dress.

Finally, accounts can be opened at the number of stores you decide to shop at. No one is going to look at you strange at the height of fashion. You are an student in study and not to learn the fashions about dress.

 bán accounts can be opened at the number of stores you decide to shop at. No one is going to look at you strange at the height of fashion. You are an student in study and not to learn the fashions about dress.

Above all, come with an abundance of carefully kept things. Above all, come with an abundance of carefully kept things.
The campus is made so that every student may have a glimpse of the whole University.

There will be no fraternization or sorority rushing until 4:00 Thursday afternoon after Freshman Week is over. Until that time all freshmen, women or men, may have all the fun they can stand without the matter suspecting it as it is brought up in group discussions.

RULES FOR FRESHMAN MEN

These customs have grown up as a result of years of careful planning. The freshmen should make up their minds that they should not have to do the same foolish things that the seniors did. The freshman should make the most of the first days of college life and break himself into the college routine as a man.

1. In addition to carrying their books and bags, freshmen should wear the gray and green caps on the first Monday after registration. This rule applies to all except those who have complied with a similar arrangement at another school. The caps are to be worn at all times while in Oxford, except when leaving or arriving at the college. The caps will be worn at dances, concerts, and other events between semesters and during the various holidays before the Spring Reunion, while in Oxford.

2. On the last night before the Spring Reunion, the freshmen are given a chance to play for the last time. On that night the freshmen are to meet in the gymnasium and play a good deal of competition at the time as each freshman club tries to build a bigger pile of wood than any previous class.

3. Freshmen men must all visit the athletic teams at the depot and carry their luggage with the proper amount of enthusiasm. Visiting teams are always given a most important regularization, for it is quite impossible to get a perfect registration, and it is the duty of every freshman to do all in his power to help the various college clubs, especially those with which he comes in contact.

4. In addition to carrying their books and bags, freshmen should wear the gray and green caps on the first Monday after registration. This rule applies to all except those who have fulfilled a similar arrangement at another school. The caps are to be worn at all times while in Oxford, except when leaving or arriving at the college. The caps will be worn at dances, concerts, and other events between semesters and during the various holidays before the Spring Reunion, while in Oxford.

5. After every athletic victory, freshmen are given a chance to play for the last time. On that night the freshmen are to meet in the gymnasium and play a good deal of competition at the time as each freshman club tries to build a bigger pile of wood than any previous class.

6. Freshmen men must all visit the athletic teams at the depot and carry their luggage with the proper amount of enthusiasm. Visiting teams are always given a most important regularization, for it is quite impossible to get a perfect registration, and it is the duty of every freshman to do all in his power to help the various college clubs, especially those with which he comes in contact.

7. No freshman shall bring a date to any pep meeting or University athletic event.

8. All formal Freshmen help dominate the Athletic Field for the Homecoming Dance to be held the year at Oxford, because of the excitement of a great number of students.
GREEK LETTER SOCIETIES

Miami is famousamong universities of the United States as the "mother of fraternal, social, national, honor, and professional societies." The present list is only a partial one. The national societies are found here.

There are now thirty Greek letter societies on the campus, fifteen fraternitiesand fourteen sororities. Such organizations give a social outlet for the many members depending on the nature of the society. Fraternity all have their own houses, and most have their own bands, glee clubs, debating, and athletic teams.

ASSEMBLY

Miami has maintained compulsory assembly attendance for the past two years. Assembly credit is also given for students who serve on the school's assembly committee. Starting this year, the assembly credit is limited to two credits per term for students in the assembly committee. Each assembly credit is worth a grade of "C" and must be completed in order to receive credit.

ATHLETICS

This year's athletic season begins in October and continues until June. The fall season includes football, soccer, and cross-country. The winter season includes basketball, wrestling, and track. The spring season includes baseball, softball, and lacrosse.

Soccer is played every Thursday morning, and programs of sufficient interest are advertised in the school newspaper. The weekly activities are announced in the school newspaper, and students are encouraged to attend. No student is excluded from the activities that are advertised in the school newspaper. Students are encouraged to attend and are held to the same standards as in classes.

The fall season begins in October, and are held at 4:30 o'clock in the auditorium.
Varsity Athletics

Miami finished third again in the Buckeye Athletic standings this year, and lost the coveted Buckeye Cup to Ohio State University, which was second. The Redskins won their fourth track championship in succession, but finished fifth in football, fourth in baseball, second in wrestling, and tied third in cross country, and consequently failed to place higher in the year standings.

FOOTBALL

After losing a dramatic opening game to Pittsburgh, the Redskins football squad won four of its next five games to give promise of a successful season. Despite that, however, the finished record of 4-2-1 for the 1927-1928 Buckeye Cup season was not as high as the Buckeye Cup tradition demanded. Two Bucket Cup games, those against Ohio and Michigan, were lost by small scores.

The Buckeye Cup was not a new one, but was established more than a century ago and was a challenge to the best teams in the nation. The Buckeye Cup games, however, failed to make much of an impression on the average football fan due to the generally high standards maintained by the Ohio State University athletic teams.

The Ohio State University and Wittenberg games were the last two games of the season. The Ohio State team outscored their opponents in both games. The Buckeye Cup was awarded first and subsequently the Wittenberg team received second. The game against the Bearcats was a thrilling one, with the Bearcats leading early in the game. Ohio State rallied in the second half to gain victory.

The Ohio State University team was led by a strong offensive line and a defense that was well-prepared to meet the Buckeye Cup. The game against Wittenberg was a close one, with the Buckeye Cup being awarded to Ohio State. The game was played in an atmosphere of excitement and anticipation.

The Buckeye Cup tradition dates back to the early days of Ohio State University and has been a symbol of excellence and athletic pride. The Buckeye Cup has been awarded to the team that has the highest record in the Buckeye Athletic Conference. The Buckeye Cup games have been played annually since 1876, with Ohio State University having won the Buckeye Cup on 17 occasions.

A strong freshman squad, plenty of reserve strength, and a new spirit of play coming to the new Coach Mugr after better times in the Redskin camp this fall.

BASKETBALL

Miami's basketball squad had a mediocrature record this year. Only 1-1-1-1, two games were scheduled against teams scheduled against six of them among the ten Buckeye Association contests.

The Redskins failed to break into the win column until the sixth game of the season, when they went out a 30-27 winner over the Ohio State University team in a closely fought game. They proceeded to draw in pairs, Wittenberg, and Washington, lost to Cincinnati, and then lost to Wittenberg in a closer game. The Redskins finally won a second contest with the Greenhorns squad, and dropped two more to Wittenberg and Wittenberg in a hard fight. The decision of the season in good style however, defeatting their traditional rivals, Cincinnati, to average an earlier loss to the Bearcats.

The squad had several veterans from the squad should be offered to some extent this winter by several leading men. The new coach, Coach Mather, will be expected to do better in the coming season.
The Miami track team won the Buckeye championship for the fourth consecutive year by 25 points over Ohio Wesleyan, which was favored to win because it defeated Miami in a dual meet at Delaware a week before. The Redskin loss at two meets during the season, one to Ohio Wesleyan, by the score of 130-27, and to Michigan Normal, one of the best teams in the country, by the score of 86-84, Miami defeated DuPree, 91-5, 111-5, and Ohio University, 66 to 42.

Charles Skaggs, Miami distance star, remained in the Buckeye meet, broke his own Buckeye record in the mile event, covering the distance in 4:35.4. Charles ran the two-mile in 9:12.5 against Michigan Normal.

Vernon Chesticle broke a record he set at the Buckeye last year by throwing the discus 155 feet, 9.5 inches. Miami placed in every event except the 440-yard dash, where the Buckeye Meet record was established. Several Athensites were prominent in this event. Good changes for Miami teams for several pages to come. An especially good freshman, named from left to right, is ''Lee'' Hooper and ''Steve'' Fox. Have won on the field and track.
BASEBALL

Miami had the least successful baseball team in several years last spring, finishing behind Ohio Wesleyan and Cincinnati to place third in the Buckeye Conference. The Redbirds lost five of their six Buckeye Conference contests, winning only one and losing another to Ohio University, and dropping two each to Western Reserve and Ohio State. They had nine losses in games with Marshall College, winning only one of four. Several of these preliminary matches were disappointing to the students and fans. Some promising sophomores have shown the ability to fill the shoes of the seniors graduated from the squad last year, including several good pitchers and infielders, who make up Miami's representative next spring.

CROSS COUNTRY

Coach George E. Bidler's 1931 cross country team was not as successful as usual, placing second of its three meets and fourth of its four meets.

The harriers lost the opener to Michigan State Normal, one of the best teams in the country. They then improved taking a close meet from Ohio Western at Delaware. After easily defeating Cincinnati the Redbirds lost another close meet to Delaware in the Ohio State meet. Ohio Wesleyan had the winning low score in the Buckeye meet, while DePauw, Western Reserve, and Miami third, and Cincinnati fourth.
Athletic Association
All students of Miami are members of the Athletic Association. By a par- 
tient of a student fee of five dollars at the beginning of each semester each 
student becomes a member of the As- 
ciation and can use the facilities of the 
Athletic Association at Oxford. These tickets are not trans-
ferable and are non-refundable.

Athletic Board of Control
The Board is composed of five faculty members, appointed by the President of the University, and five members elected by the members of the Athletic As-
ciation. This organization awards 
approval grants and controls all policies of athletics.

In the winter of 1925, several Ohio coaches met at Columbus to work out more suitable schedules for their teams. At this meeting, a schedule-making committee was appointed. The committee, under the chairmanship of Ohio University Coach Charles E. McManus, met several times during the season. Ohio State, under the leadership of Coach George J. O’Connor, was formed with Miami, Wilber- ton, Springfield, Ohio University, Den- ver and Philadelphia. These schools did not formally withdraw from the old Ohio Conference at that time but did so in the latter part of the year. All members of the Buckeye Conference were members of the new conference. Thus there was brought into existence a new conference which was closely connected with the old conference, with the six original schools as members.

In the later part of the year 1926, there were schools at the request of the Ohio Conference to see if the conference could keep its old schools making flights. In 1927, when a new ruling was passed requiring all schools to be members of a conference before they could make flights, these Buckeye schools formally withdrew from the old Ohio Conference and formed a new conference, the Ohio Collegiate Athletic Conference, with the six original schools as members.
This organization now has its own constitution, rules, and by-laws as well as eligible by-rates. The eligibility by-rates are graduates and seniors, all of whom can contribute to the Ohio Conference. Wittenberg failed to comply with the rules in 1929, and was voted out of the conference on May 28th, 1930. This would have given assurance that it would abate in a few years. However, it decided in 1930 that it would not continue in the conference regular session of the conference at the end of the 1932 football season. Marshall College, of Huntington, West Virginia, applied for membership at the regular meeting, and was accepted, with the hope that it would continue in the conference regular session of the conference at the end of the 1932 football season.

BURKHARDT TROPHY

In 1924, A. E. Burkhardt, of Cincin-
nati, donated a trophy to encourage
intramural athletics at the University of Cincinnati and Miami University.

The trophy is a twenty-year cup and
will become the permanent property of
the school having the greater number
of points at that time.

In 1925-26, Miami easily won the cup
by piling up a tremendous lead and
winning by a score of 13 to 5. The
next year Cincinnati established how
it would be impossible to beat them,
by scoring 15 to 3, or a similar score
of 13 to 15. In 1927-28, Miami again
won the trophy by the score of 12 to 6.

Last year Cincinnati won the cup
by a score of 18 to 14, and in 1930-31

INTRAMURAL ATHLETICS

Not many years back in the history of
our college and universities and in
the history of most of us, there was
a general belief that the average size

This system of intramural athletics
took care of a few trained and highly
trained athletes. There was no opportu-
nity for the development of the different
branches of intercollegiate athletic
arts. The assets of this college system
of athletics were the spirit of friendly
rivalry among colleges or universities
and shrinal or body-building benefits.

Then came the World War and
America's entrance into this world's
struggle to realize the ideals that
should be based on the human

with the spirit of athletics, the spirit

the activities take the form of outdoor sports, such as squashball, playground ball, tennis, baseball, swimming, water polo, cross-country, and baseball. The activities are open to all members of the University community, and of the fraternity and sorority systems. Several of the activities, such as squashball, tennis, swimming, water polo, and baseball, are held in the same facilities as the outdoor sports that fill the spring calendar.

It would take too long to give a detailed description of our system of intramural sports here at Miami, but it is understood that Miami University, in return for direct and indirect financial support, performs a dual function in intramural athletics.

Every student is expected to participate in some athletic activity. All students are grouped in the Intramural Department. Each group is given an opportunity to participate and develop an interest in athletics. There is no penalty for not participating but the regular fall and spring events are considered to be important in the Miami University athletic program.

Usually the best students in the University have a keen interest in athletics. This interest takes an important part in intramural sports.

Becoming a part of one of the many student organizations and participating in the Intramural program is a chance to participate and increase the intercollegiate athletic rivalry. The University provides a wide range of intramural sports, including basketball, tennis, and track. Several new features were initiated by the Intramural Department in 1973. These include, in the fall, a tennis tournament and, in the winter, a student-volunteer program for the freeman's intramural basketball league and an indoor track meet. The special spring feature for the freshmen is an outdoor track and field meet. All of these events are open to all students to compete in and are not limited to the varsity or intramural programs.

The spring meet is held for the freshmen and is part of the intramural program. It is open to all freshmen and is held at Cook Field. Cook Field is the home of the University's track and field team. Sports

Keeping an eye on that ball is only one of the many rules in hockey. This sport is played in the fall.

The main idea in soccer is to keep on your feet and "go"! That ball occasionally also played in the fall.

"Hitting the leather" is the theme for the volley ball enthusiasts. Another fall sport.

"Rake" Baths are plentiful here by the spring, when baseball fans start warming up for a fast game.

No girl in a full-fledged track team will she has recovered at least two "charity" horses and a good spring coat of tan.

smack in the bull's eye, and who cares if it isn't easy? Anthony in the spring is as popular as the most popular sports on the campus.

Bobbi Will Moody has nothing on the girls athletes who own these types of sorcery and vigor. Another spring novelty.

"And they all walked home" from hiking. At least it keeps you in practice for year round.

The Indoor and Outdoor Meet's are always a source of fun and excitement. No one misses 'em.

Four Days-and once every year—brings together the girls of three colleges in competition in various events and teams.

Cheering and interpretative dancing are musts in demand for they improve either the mood or the fatigue. How about those extra pounds, girls?

Miami has a large and well equipped library. This book lending room seats approximately 280 people, and the reserve reading room about 150. In all, the library contains about 100,000 volumes.

Library rules which apply to all students, and, if learned, will save new students much inconvenience, are as follows:

1. Books may be secured by signing them at the desk in the lobby. A fine of two cents per day is charged for books kept longer than the specified time.

2. Books may ordinarily be kept for two weeks. An alphabetical index of all volumes is provided, listing them by title and author. Books can be called for by number only.

3. Admission to the stacks may be obtained by application to the librarians. In special cases, a card is issued allowing the bearer to enter the stacks at any time, but this is not true of magazines. Magazines may be obtained at the desk.

4. Reserve books may be obtained at the reserve desk in the basement.

5. Regular books may be borrowed for three weeks, moved from the library except at the close of the day, and must be returned at the close of the week. Books borrowed on Saturday evening must be returned before 7:00 a.m. on Monday. A fine of ten cents is charged for every reserve book kept after the time limit expires.

MIAMI CHEST DRIVE

Several years ago the members of the Board of Trustees were approached with numerous calls to contribute to various worthy organizations. Each Christian Association and charitable institution made a separate request each fall for funds to aid these worthy causes. The Board of Trustees became aware of the repetitive nature of these requests and decided to adopt a system. A budget, although a specific sum to each organiza-
tion, was made out by a committee of the Board and the group was then asked to raise the money. The White Cross, faculty, and student, united and raised the monies, and the Board of Trustees was then able to contribute directly to the cause which, in one short decision, they were able to support three institutions.

In the past six years this drive has been successful. The Board will begin this month with a new campaign. This drive will give you a chance to help support the local Y. M. C. A. and the local campus officers. Last year money was sent to a loan fund for students in the Florida State area, to Green Bay, to the Y. M. C. A. in Chicago, to the War Service Fund, to the Student Friendship Fund to aid needy students in Chicago.

OXFORD

Oxford is a town of about 2,000 people. The University is located in the southeast quarter of the town proper, although it has a few buildings in other portions. The chief thoroughfare is High Street, on which the bus stop is located, and on which most business visitors are to be found.

To get to High Street from the railroad station, go one square east and two north. Follow High Street east until you arrive at Miami Gates, which open into the campus.
