PRESIDENT'S MESSAGE

It is my privilege to bid you welcome to the campus of your choice, which will be your home for one or more years to come. We hope you will find here many gifts, the heritage of the past and the promises of the future. Here you will find the freedom to make those choices which will mold your future life. We trust this freedom will not be abused. We want you to love Miami with enough fervor to abide willingly and wholeheartedly by her rules. Miami students of the past have set and maintained a high standard of scholarship and conduct. The torch has been passed to you to carry on these standards and traditions.

Miami is the gift by the Ohio taxpayers of a splendidly equipped institution of higher learning to the sons and daughters who are expected to contribute only about one-fourth of the cost of their education. Most students deeply appreciate the opportunity and the responsibility that such a generous offer affords. Miami wants men and women who are willing to work hard and play hard, in order to keep faith with the taxpayer whose dollar some-
times is the result of "blood, sweat and tears."

Miami welcomes all those who have come to her campus for the first time in 1949 and wishes for all many happy hours of splendid enjoyment, profitable academic attainments and the mental and spiritual progress that characterize the exemplary Miami men and women. Registration implies a pledge of loyalty to the ideals for which Miami University stands.

Ernest H. Hahne,
President.

FOREWORD
CLASS OF '53 — WELCOME!

In a few short weeks you will be arriving in Oxford. Congratulations and welcome! We are glad you have chosen to come to Miami. It is an old university, rich in its traditions, beautiful in its location and unique in its philosophy of personalized education. Her scholastic standards are high, her student body and her facilities are steadily expanding, yet her attention to each individual student and his or her particular needs remains a prime consideration.

Remember, you are coming here not just to sharpen your intellect and improve your ability to think, but actually to improve yourself in every respect — physically, emotionally, spiritually and socially as well as intellectually. New friends, new experiences and new opportunities await you. Know your university and its rules and regulations. Get acquainted with your classmates and take part in the affairs of your class. Join in the life of your residence hall and in the activities of some interesting organization.

Things may seem a bit confusing when you first get here, for any situation usually presents adjustment problems. Use your student counselors and your heads of residence for help and guidance. Don't go home every week-end — that makes it all the more difficult to become a real part of Miami. Plan your time wisely. First and foremost, master your lessons, then par-
partake fully in the extra-curricular life which abounds on this campus, for in such a balance of study and activity is found the essence of a real education.

Make it a point to drop into the Office of Student Affairs, 153 Benton, to get acquainted. This is your office; its staff is always ready to serve you and make you welcome.

Robert J. Miner,
Director of Student Affairs.
HISTORY

On February 17, 1809, the Ohio legislature passed a law that provided for the establishment of a state university. The law was signed by Governor Thomas Jefferson. Ohio's first state university was established at Oxford, Ohio, on the site of Miami University. The university was founded in 1809 and is the second oldest university in the United States.

In 1860, construction began on Old Main building, now known as Old Main Hall. By 1824, the university had grown to include a school of medicine, a school of law, and a school of engineering. The university also had a small library and a theater. The university's first football game was played in 1869 against the University of Cincinnati. The game was played on the campus of Miami University and the game was won by Miami University with a score of 14-0.

Enrollment dropped during the Civil War and the university closed in 1873. The university reopened in 1876 and the university's first football game was played in 1878 against the University of Cincinnati. The game was won by the University of Cincinnati with a score of 14-0.

The university's first football game was played on the campus of Miami University and the game was won by Miami University with a score of 14-0.

The university's first football game was played on the campus of Miami University and the game was won by Miami University with a score of 14-0.
The curriculum was also gradually changed, and more freedom was allowed in the choice of courses. In 1902 a teacher's college was established as a part of the University and a program instituted for the training of teachers and school administrators. In 1926 a School of Business Administration was erected from within the college of Liberal Arts. Now the University includes a School of Fine Arts and a Graduate School with graduate study leading to a master's degree.

TRADITION

Each school has its own traditions which are carried over year after year and Miami is no exception.

Early in Freshman week, you will become acquainted with the custom of the freshman man surfacing the women's dormitories.

Homecoming parties in the biggest and most exciting weekend of the year. The night before a big pep rally opens the activities on Cook Field where freshmen have lighted a huge bonfire. Prior to the game sorority floats and fraternity float decorations compete for prizes. During the half time of the game, a Homecoming King and Queen are honored. The first formal dance of the season climaxes the festivities that night in Withrow Auditorium.

In the Springtime, freshmen women take a large part in planning and participating in a special program for May Day. The ceremonies are held in Bon ton Hall and on this occasion Crown, sophomore women's honorary, and Mortar Board, senior women's honorary, rep outstanding freshmen and junior women. A Queen of the May is elected from the members of the Mortar Board and senior members of Withrow's League by all campus women. The Junior-Senior breakfast is held early May Day morning in Herriton Hall honoring the graduating seniors.

On Mother's Day you invite the folks down to hear the Interfraternity Sing from the Life Trucks. Mom may stay in the fraternity house, dorm, or a tourist home. The sorority and dormitories hold special banquets and various groups attend-sorority together on Sunday.

When the athletic season arrives in all its glory, you'll hike to the old covered bridge to carve your initials into it.
Tradition requires that those who do not return to Miami on time will wander by the swinging bridge behind Fisher Hall, where, according to tradition, a couple must kiss or the bridge will sink beneath the waves of Tai-Tai-Wang-Yi.

**CAMPUS DIRECTORY**

Unless you refer to this or a similar guide, the map in the back of your book will probably be Greek to you.

**McBoo** — College of Arts and Science.

**Bentley Hall** — Administrative offices; auditorium where assemblies, concerts are held.

**Hume Hall** — Zoology and geology departments.

**Harrigan Hall** — Classes for Romanic languages, speech, art, psychology, counseling service.

**Irvin Hall** — College of Arts and Science, School of Business Administration, Offices of Miami Student, Aerospace, Tomahawk.

**Houghton Hall** — Offices, labs of chemistry, math, accounting, secretarial studies.

**McGuffey** — School of Education, offices.

**Upham Hall** — College of Arts and Science.

**Herron Hall** — Women’s gymnasium.

**Withrow Court** — Men’s gymnasium, scene of basketball games, graduation exercises, dances.

**Bishop House** — Music studios.

**Buchon House** — Administrative office, business office, Fred C. Whitcomb Laboratory.

**Shawn** — Naval Science Building, ROTC unit.

**Alumni Library** — Reading room, offices of Scripps Foundation for Population Research.

**McFaul Observatory** — Aeronautics department.

**MacMillan Hospital** — Located on Campus Drive.

**Field House** — WAA club house, women’s physical education classes.

**Women’s Dormitories**

**Anna Logan Lodge** — Freshman education woman.

**Anderson Hall** — Freshman women; contains a laundry for Stanton.

**Hepburn Hall** — Freshman dorm; YMCA offices.
Fisher Hall — Usually a freshman men’s dorm.
Fines — Atmosphere and beauty of an old manse home.
Fives Lodge — Located directly be-
    yond the Fines,
Lodges — Men’s barracks.
Veteran’s Village — Prefab 2-family
    units, trailers, laundries, and co-
    operative grocery store.

Residences
Tellawanda Apartments — Corner of
Tellawanda and High.
Lewin Flare — Official residence of
the president.
Simpson Guest House — Official Uni-
versity guest house.

Temporary
Rubikin Reservation — Temporary
student recreation building.
Faculty Office Building — Temporary
office.
Buildings A and B — Architecture
lab.
Building C — Aeronautics and pho-
tography classrooms.
Building D — Radio station WMUB,
electronics laboratory.
ALMA MATER

OLD MIAMI

Words by President A. H. Upham
Music by R. H. Burke

I

Old Miami, from thy hillcrest
Thou hast watched the decades roll,
While thy sons have quested from thee
Sturdily-hearted, pure of soul.

Chorus

Old Miami! New Miami!
Days of old and days to be
Weave the story of thy glory.
Our Miami, here's to false!

II

Aging in the simple splendor,
Thou the calm and they the storm.
Thou didst give them joy and conquest,
Strength from the sustained fair arm.

III

Thou shalt stand a constant beacon,
Crimson towers against the sky.
Men shall ever keep thy guiding,
Power now thine shall never die.
FRESHMAN WEEK

Although most of you will have visited the campus before, some of you probably will be seeing the red flowers of Miami for the first time. Although you women might be anxious to see the rest of the campus, it is best to leave sight-seeing until later and travel to your dormitory. If your father or some other strong-armed male is along, he can help you unload your luggage to your room — and of course the folks will want to see where you’ll be living.

Your housemother and a couple of sophomore counselors will be there to greet you. They will give you a freshman week schedule, which will plan your next four days. Hang on to it!

There will be two counselors in your corridor. Since they are just a year away from being freshmen themselves, they can be a big help in explaining regulations, directing you to campus and generally softening the thorny path of a freshman.

It’s a good idea to get the room fixed up and the division-of-space problems settled soon after you arrive. This is a good way to get acquainted with your roommates and maybe the merchants of Oxford if you haven’t brought dinner or spreads.

Sunday evening convocation will be held to introduce you to President Tinker and Mrs. Anna Mayer.

Procedure for men is a bit different. Finding your room will be easier than you think, for upon arriving, you go first to Beetsh Hall, where you will find out your room number, dorm, dorm and your key.

After this, you can proceed to your dorm, where your Head of Residence will be waiting to meet you and your folks. He, too, will have a schedule for you.

When you get to your room, you might as well make the folks out of your suits and pants and hang them up. However, if your roommate, or mess, hasn’t come up yet, bad you, too, use consideration of closet space.

This is the opportunity meant to get to know the other fellows in the hall, so step a while and shoot the breeze, or look up your counselor while you’re
WHAT TO BRING

Now that you’ve sure Miami is to be your home for the next nine months, you can start packing. First off, let’s remember that you’re going to be sharing a room, which means economy on everything’s part.

For you women the list from your future counselor is the best guide you can get. All the items they list are musts.

For the first few weeks of school in the fall you’ll find a few cottons will be very necessary. Oxford has some terrible Indian summer days.

As the advertisements say, the traditional skirt and sweater and brogues combination is still campus correct. Bring your heavy saddle shoes or boots. Multicolored lead scarves are a good bet for almost any occasion. Capotes is a Miami trait, so jeans and stocks plus plead shirts come in handy. For field trips, hikes, and so on. A pair of old shoes and a couple of dad’s white shirts are a must for this costume.

Sophistication does depend on Miami now and then so an afternoon dress or two will help out on a Friday or Sun...

at it, before you start for convocation.

A list of regulations will be posted in your room. When you think them over, you’ll see that they are pretty fair and logical. In fact, they consist of what most people would do anyway if they had an average allotment of common sense. A student who keeps to the spirit of the rules will be able, with no strain, to keep out of conflict with the Powers That Be.

Better get your sleep Sunday night—

the next day will dawn bright and early, and with a lot to be done. Like the women students you will have a heavy schedule of events.

A big item on the agenda will be the psychological test to determine your aptitudes in various fields. You will also be examined physically at the University hospital after filling out an extensive health questionnaire.

Last but certainly not least among your duties during Freshman Week will be the payment of your fees to the University. This calls for comfortable shoes— it may take time.

Social life is definitely not passed up by freshmen during this week. Numerous "mixers" have been planned so that you can meet the rest of your class.

26
day night date. Saturday nights you can go all out for heels and hose. A basic black dress spells correctness and can be worn at sorority rush parties.

The annual dances call for a formal or two along with accessories. Your roommate may have just the right rhinestone necklace for you but she might want to wear it, too.

Suits are most helpful. Coats and jackets add a lot to your wardrobe. Don't forget a hat for Sundays and teas. May Day ceremonies call for a white dress or a white skirt and blouse. And add your appropriate shoes in a space-saver shoe bag.

Then there's the rain - it comes often and lasts long. You'll have plenty of opportunities to use a good-looking, water-proof raincoat, a bright umbrella and boots.

Matching spreads and drapes go toward creating a livable and cheerful abode. The all-important wastebasket, a dresser light and scarf, a possible stand for your radio and your favorite stuffed doll might be added. Soft-soled slippers help keep the noise to a minimum, but shower clogs are convenient. Add a shower cap and a shower robe, too.

You must furnish your own bed linen, which should be carefully marked with your name and room number. The University will take care of the laundering. Of course, you'll want several blankets for winter months.

Miscellaneous but useful items are towels, wash cloths, soap and soap dish, drinking glass and silver for spreads, a drying rack for hose, a bottle opener, dust cloth, molding hooks and a bulletin board for your favorite pictures, a laundry bag and plenty of clothes hangers.

As for men's fashions, you'll find that the things you are accustomed to wearing at home will fit in nicely with your new life as a student.

Slacks are useful for class, coke dates, movies and the like. At the time of writing there is a hint at a trend toward colored shirts for men. White shirts with either barrel or French cuffs are good to own. French cuffs afford an opportunity for you to sport some fancy jewelry.

Gabardines and other hard finish materials are big favorites. One button roll coats and the new "sacky" two button double breasted coat are worn much because of their dressiness. A fairly dark suit will double as a tuxedo if you don't have formal clothes.
Don't forget your raincoat. Trench coats are fashionable, but anything that turns water will be a blessing. A top coat is a good fender of the wint'ry blasts.

In case you're athletic, and who isn't, you must bring shorts, tee shirts and gym shoes. A ball glove or a tennis raquet won't hurt, either.

Remember that you can't stick anything on the walls. And by all means don't forget a loud alarm clock to help get you to eight o'clocks.

You must furnish your own blankets. The University furnishes bed linen and launders same for men living under University housing.

DORM LIFE FOR WOMEN

Freshman dormitories are noted for their friendly spirit. When you arrive in Oxford on Sunday, September 11, you will find yourself surrounded by women who are just as eager to begin their college careers as you are.

When in need of advice, all that you need do is trot down the hall to see the two sophomore counselors who will be living at the end of your corridor. They have been selected from the group of freshman women living in the dormitory the previous year to serve as counselors for you and are able to understand your problems and to answer any qualms and queries.

There is also a housechairman who has been selected from the sophomore counselors of the previous year. She is assisted in her duties by a junior counselor. These girls, being old timers at the job of counseling, will also be very willing to help you.

There are certain rules made by and for the students. You will be expected to keep the following hours: week days, 10:00 p.m.; Friday, 10:30 p.m.; Saturday, 12:00 p.m.; and Sunday, 10:30 p.m. Special "late pers" are given for dances or University-schuludled events, such as the Artist Series.

Out-of-town guests may be entertained only by arrangement with the head of hall and should not remain longer than three days. They are expected to abide by the regulations set up for all Miami women.

After 7 p.m. women must sign their name and destination. There is a special book in which you must sign
DORM LIFE FOR MEN

Living in one of the four freshman men's dorms presents an entirely dif-
f erent and variable way of life for new college students. Of course, like any-
thing else, what you get into it will be just exactly what you get out of it.

Contact with students from all over
the country can be a pretty en-
lightening experience for an enterprising freshman.

Dorm life sessions encourage topics that range from fo-
ligion to recent dates give you a chance to know your buddies and to express your opinions.

Each corridor in your dorm has coun-
selors who have experienced many of the difficulties that are bound to arise. Anything from a spherical trig problem to a house personal "Dear John" is right in their line so don't hesitate to get in touch with them.

Your Head Resident is another man to look up to as soon as you arrive. He'll be glad to help you over hitchhiking situ-
ations if you give him the chance to know you well.

Men are not as restricted in their hours as the women are, but tri, how-
ever, is probably the best system when they leave Oxford, in case it becomes necessary to contact them.

Quiet hours are observed in all dorms from 7 p.m. to 12 noon, and it is advised that all men retire by 11 p.m.

Good times are not sound-proof, playing musical instruments is restricted and the piano is used only before and after meals.

The possession of alcoholic beverages in dorms is strictly prohibited, along with the use of profanity, vulgarity and gam-
bling.

The University provides daily maid service.
There are several schools of thought on what is the best way to handle finances. Some like to bring a check signed by their parents and made out to the University with the enroled left blank. This can be filled out in payline. Students usually arrange with their parents to send them a weekly or monthly allowance. Another way is to maintain a checking account, either at a hometown bank or a local one. One thing, however, expenses usually are larger than anticipated.

Be sure when you are planning to combine dating and social activities. Will everything on an inflated level the University catalog seems optimistic with their $3 maximum. Don't forget to allow for books, fees and key deposit. Dependent on individual cases, a rough estimate is $25 for books and $8 for lab fees. Provision for dry cleaning, laundry (postage and laundry bill), and toilet articles should be considered. And there's always that food for midnight snacks.

Your dollar deposit for a key to your room is always refundable when you return your key at the end of the year.

"How much is it going to cost?" may likely be your first question. Early in Freshman Week you'll get a chance to get rid of your family savings at the Cashier's desk in payline.
If you lose your key, you can obtain another for 25 cents at the Cashier’s office. Duplicate of your roommates’ keys are not available because they are not standardized. Mr. David Allen, bursar, he’s stressed.

The expense figures following will give you a basic idea of costs. At writing there is no anticipated change, but a strict estimate is still difficult. Further information is in the University catalog.

MAMI'S SCHOOLS

Four different schools are open to undergraduate students at Miami. Bachelor degrees are offered in the College of Arts and Science, the School of Education, the School of Business Administration and the School of Fine Arts. Besides, the University maintains a graduate school granting masters degree.

One wanting a well-balanced general education school should select the College of Arts and Science. A great deal of opportunity in the selection of courses is offered in this school. At the conclusion of a four-year course, either a Bachelor of Arts or a Bachelor of Science degree is awarded depending upon the relative distribution of major courses. Preliminary training in law, medicine, theology, engineering, and other graduate studies is followed on in this College. Under an Arts-Professional arrangement students are permitted to complete three years of work and then go to graduate school in these fields.

Divisions in the School of Education are the Elementary Education, the Practical Arts and Secondary Education departments. The school offers courses in preparation for teaching in and supervising public schools. Two-year, three-year, and four-year curricula are offered in the Elementary Education division. Curriculum in Education, Business Education, Health and Physical Education, Home Economics, Industrial Arts and Mineral Education are given in the Practical Arts division. Secondary Education division is designed to prepare teachers for the usual high school subjects of grades seven through twelve.

Preparation for six different phases of the business world can be made in the School of Business Administration. Majors in Accounting, Finance and Banking, General Business, Industrial Management and Marketing and Marketing and Marketing all lead to the degree of Bachelor of Science in Business. A major in Secretarial Studies results in the degree of Bachelor of Science in Secretarial Studies. All of these majors require four years of college work.

The School of Fine Arts awards degrees of Bachelor of Music, Bachelor of Fine Arts, Bachelor of Architecture. Four years of study are required for all the degrees except the last one, which requires five years. A Bachelor
of Music requires a curriculum in music and liberal studies. The United States maintains a Naval Reserve Officers Training Corps at Miami. Under this program it is possible to gain a bachelor’s degree and at the same time secure a reserve commission in the Navy or Marine Corps. Students may participate in this program as either “regular” or “contract” students. Regulars enter into an eight week reserve civil class every spring, while they are in college and contracts take one three week session and serve two years. Regulars after graduation while contract students after graduation have certain required courses in mathematics and physics and are exempt from ROTC. A course in Naval Science is required every semester.

GRADING SYSTEM
Just as there are milestones along the side of a highway to mark the progress that a traveler is making toward his destination, so it is that grades are a milestone in your academic progress.

As freshmen you will receive your grades from your advisor at five weeks, as well as at nine weeks and the end of the first semester. This is to give you an idea of the calibre of the work you have been doing.

Although all of your grades are sent to the registrar’s office, only the master grades are placed on your permanent record and sent to your parents or guardian.

The grading system used at Miami is similar to that used by most high schools. If you are not already familiar with it, it would be well to review it.

A — indicates excellent work and carries a credit of four points for every hour in the course completed.

B — indicates good work and carries a credit of three points for every hour in the course completed.

C — indicates average work and carries a credit of two points for every...
hour in the course completed.  
D. indicates poor work and carries a credit of one point for every hour in the course completed.
E. indicates a condition or an incomplete course and carries no credit points.
F. indicates a failure in the course and carries no credit points.

To figure out your point average after you receive your grades is quite easy. Merely take the number of credit points awarded for your grade in each subject (A = 4 points, B = 3 points, C = 2 points and D = 1 point) and multiply by the number of hours in the course. Then add the various products and divide by the number of hours you are carrying.

Note: Service courses in Physical Education are disregarded in computing averages. Courses in Music Ensemble are similarly disregarded except for Music and Music Education majors.

If you find that the final number should fall below 1.4, it is time for you to settle down and begin to hit the books. Any freshmen who does not earn an average of at least 1.4 on all work attempted during the first semester will be placed on probation. If a student is once placed on probation, he may be dropped from the University at any subsequent time that his grades should fall below probation standards.

The remainder of the rules which concern grades are as follows:
1. Any student who fails to pass at least half of the work for which he is registered, or a minimum of seven hours, may be dropped, regardless of whether or not he had been previously placed on probation.
2. A student dropped for scholarship must remain out one full semester, after which he may return on probation. Readmission depends upon the consent and approval of the Committee on Admissions. This committee will not consider an application until at least one semester has elapsed. The application for readmission to the University must be accompanied by evidence that the student is likely to do better work than that which had brought his suspension.
If a student under suspension for scholarship does college work elsewhere during the period of suspension, he may receive credit for such work on to one-half of the number of hours passed in the semester which preceded his suspension. Such credit must be validated by examination taken here with the approval of the student's committee of advisors.

C. Failure to maintain a C (or a two point) average at the other institution, however, makes the student ineligible for readmission here.

A student who has twice been dropped for unsatisfactory scholarship will not be readmitted to the University.

CUT RULES

If it is a beautiful day out and you think it would be a good idea for a long walk, don't! Here at Miami the best rule to follow from the very first is cut no classes unless you have a legitimate excuse. There are only three such excuses according to the University rule books. They are: (1) While representing one of the athletic squads or other such University silly functions at another school; (2) If serious illness or a death occurs in your family; (3) An illness which confines you to the University hospital.

The difficulty of letting your extra-curricular activities interfere with school work is extremely difficult come spring. Various penalties may be inflicted on those who take cuts, however. According to the latest rulings of the University Senate, cutting regulations are as follows:

1. A student is expected to attend all classes for which he is registered and is subject to disciplinary action unless he has an acceptable excuse.

2. If a student has too many cuts, his professor may report him to his advisor as having a detrimental effect on the class. For this, the advisor shall drop the student from the class with a grade of F.

3. Unless a student has a three point average for the work in the previous
ACADEMIC REGULATIONS

Sorority house/residence is required at all times of those students taking tests and examinations. "Cheating," posers and other forms of written notes are forbidden unless otherwise granted by the proctor. Whispering and note passing are also in the black.

Since the University does not approve of any of the above methods of passing exams, it is stated in the rules and regulations, pretty clearly, that "the following behavior during an examination shall be considered prima facie evidence of cheating:

1. Possession of notebooks, test booklets, of notes of any kind except when authorized by the person in charge.

2. Any type of communication between students, during the testing period.

CAR RULES

The University ruling on nem says, in effect, that you can't have them with out an extremely valid reason. If you ever have a doubt about an interpretation of the car rule, the answer is don't. The Men's Disciplinary Board spent most of its time last year penalizing off
They are granted for nearly every legitimate purpose. If you neglect the chance to get a permit and have or operate a car in Oxford, the odds are that you will get caught.

MACMILLAN HOSPITAL

On East Spring Street across from the Navy Armory stands the three-story red-brick Macmillan hospital. Under the direction of Dr. Max L. Nurcole, director of the student health service, the hospital offers clinical service to all students. Veterans' wives may be covered by the same nominal fee.

The money you pay in划线 entitles you to a three-day stay, unlimited consultation and routine treatments. Charges are made for the use of the X-ray, BMW, and Dietheym machines. Hours for clinical work range from 9 a.m. to 12 noon, 2 to 5 p.m., and 24 hours for emergencies.

There are four doctors and ten nurses on the staff in addition to numerous service workers. The hospital has its own food service which is independent of University chow.

fenders of this rule. This punishment as set by the Board of Trustees, is a $30 fine for the first offense. The student is subject to suspension for a second offense.

The Board has tempered justice with mercy on occasion, but don't count on it. Few offenders slip past the University police in trying to evade these rules.

Permits are granted to commuters, Oxford residents, married students, those over 25 years of age and for business purposes. In each case, the permit is only for the person or for family purposes—not for carrying other students.

Freshmen who think they have a valid reason to operate a car should apply for a permit in 104 Benton Hall as soon as possible after arriving in Oxford. You will be required to show a current insurance policy.

Should you have a car in Oxford for some emergency (missing the last bus, for instance) you should report it at once to the aforementioned office in Benton Hall. If you plan to have a car here for family purposes, get a temporary permit before you bring it to Oxford.
STUDENT EMPLOYMENT

So, no matter how you look at it the bank balance just won't be adequate? Never fear. Many a student has found himself in just such a predicament. There are many opportunities to earn those extra shillings, either by working for the University or elsewhere in Oxford.

Do you want to wait tables, work in the kitchen, washing or drying dishes, set up tables for meals? Then the University, dining rooms are the place for you. The Libé also employs many students. Professors can use assistance in grading papers, stenographic work and also lab assistants in almost any field in which you are interested, have had some preparation and are willing to learn. Additional jobs are available for girls to help at the Hospital and as ball girls in the women's dormitories. For men, the department of Buildings and Grounds, located on lower campus east of Hughes Hall offers jobs that promise to build muscle.

Anyone interested should contact the Director of Student Employment in Room 106 Barton.

Five work scholarships are granted yearly and give an opportunity to work the equivalent of the registration fee in administrative offices.

Local groceries, dry cleaners, drug stores and eateries all offer limited opportunities to students. The pay varies with the kind of work and with the employer.

A good practice for a freshman is to plan on having enough money for the first semester without working, if possible. By so doing you allow for the best possible adjustment and give yourself plenty of chance to see how much time you have to spare.

SPECIALIZED SERVICE

A counseling service is offered by the University to all students. Dr. Rixby and C. H. Fry, Director of Counseling are in charge of the service which is located in Room 1110 Hartshorn Hall. If you're in doubt as to just what you want in the way of a vacation, Dr. Crossley is the man to see. His attitude tests and vocational and educational counseling have assisted many students in determining the type of work for which they're best suited.

Dr. Robert J. Minor is the University Director of Student Affairs. His office, located on the first floor of Barton.

50
HALL serves as a liaison between students and administration and works for a better understanding of problems facing the students.

Social Director is Mrs. Grace C. Dame, who schedules all campus activities, in addition to handling the bookings of the musical talent which appear on campus.

Also located on the first floor of Benton is the office of Mr. H. W. Stephan- son, Director of Student and Yel Village Housing. He is the man to see about auto permits and student employment.

Mr. Harry M. Geilach, who maintains his office on the 1st floor of Benton, is in charge of admissions to the University and handles loans and scholarships.

The Alumni office can be found in the south wing of Ogle Hall across from the YW office. Mr. John Dolliss is Executive Secretary of the Alumni Association and keeps in contact with all graduates of the University. The Miami Alumnus is published six times yearly and distributed to graduates through this office.
PHI BETA KAPPA
Membership in Phi Beta Kappa is the goal toward which college students as
everywhere are striving. Founded in 1776
at the College of William and Mary, it is the highest scholastic achievement
possible in the College of Arts and
Science. The Miami Chapter, Iota of
Ohio, was established in 1911.
Perhaps the foremost activity of the
honorary is the im-
vite for membership
those individuals
whose extra-curricular
activities are on
a par equal to their
scholastic achieve-
ments. To be con-
sidered for mem-
bership, a junior
must have a cumu-
lative average of
3.75 and a senior,
3.5 average.
Once a year, scholarship cards are
given to the fraternity and sorority
with the highest grade average the pre-
vious semester.

Another of Phi Beta Kappa's functions
is the presentation of its junior Scholar-
ship award, given yearly to the out-
standing member of the junior class.
The student chosen must excel in schol-
aristic, leadership, personality and ac-
complishments.
Two banquets are held yearly, the
first, in April, to welcome the newly
elected members, and the second, on
Baccalaureate Sunday, to honor the
alumni and their families.

BETA GAMMA SIGMA
Beta Gamma Sigma, national honor-
society in the field of commerce
and business administration, was estab-
lished on Miami's campus in 1947.
Founded by the consolidation of
three local honorary clubs at the Uni-
versity of California, University of Illi-
nois, and the University of Wisconsin in
1919, it is the only scholarship organi-
sation limited to students in commerce
or business administration accredited
by the American Association of Col-
legiate Schools of Business.
Until 1929, women were not eligible
to membership. Requirements for elec-
tion are a 3.75 average in the junior
year and a 3.5 average in the senior
year.
PHI ETA SIGMA

Phi Eta Sigma, freshman men’s scholastic honor society, was established at Miami University in 1928, the fifth of the chapter’s throughout the United States.

After the first nine weeks’ grades are published, all men with a three point average or better are invited to a smoker usually held in Ogden hall. At this smoker, the men become acquainted with the society; its purposes and ideals. Before the end of the semester, these freshman meeting the scholastic requirements; a grade average of 3.0, are initiated and allowed to wear the key of the honor society, the golden scroll. One of the projects of Phi Eta Sigma is the publication of its pamphlet, “Hints on How to Study,” which helps to further better scholastic attainment.

SERVICE AND LEADERSHIP HONORARIES

CWEN

Outstanding freshman women are tapped in the annual May Day ceremonies to become members of CWEN, sophomore women’s service honorary.

These girls are chosen on the basis of scholastic, leadership shown during the year, activities, service to the University and personality.

The formal initiation ceremonies are held shortly after the May Day tapping following which the new CWENs are privileged to wear the small crown and scimitar.

The active CWENs hold a series of “girl-acquainted” teas at the beginning of the second semester. The junior women having the scholastic average of three point for their first semester, beta chapter of CWEN was established on Miami’s campus in 1926.

MORTAR BOARD

One of the highlights of May Day is the tapping of junior women by Mortar Board, women’s service honor society. Membership in this organization is one of the greatest honors a woman can attain and is based on leadership, loyalty, service to the University and a high scholastic average.

A gold and black Mortar Board is the recognition pin worn by this group during their senior year.

Since the establishment of the Phi Alpha chapter in 1922, the Mortar Boards
have been active in University functions, such as commencement exercises and acting as guides on campus for various functions. Mortar Boards also work with ODK on Homecoming and yearly lectures. Of course, all the women honored by Mortar Board do not suddenly become eligible for membership out of a clear blue sky — the women work hard from their freshman year.

OMICRON DELTA KAPPA

Omicron Delta Kappa, national leadership honor society, was established on the Miami campus in 1954 with the purposes of promoting leadership among undergraduates.

Members are chosen from the junior and senior men on the basis of character, leadership and service in campus life, scholarship, fellowship, and consecration to democratic ideals. Topplings are held each year at the Sophomore Hop and the Senior Ball. New men being given a "bala" to wear on campus for several days.

Members of ODK continue to act as leaders of the campus in discussions of problems by the circle, the results of which are carried back to the individual spheres of influence. At Ymas the circle acts more directly in a matter of importance.

ODK is active in graduation and Homecoming celebrations, as well as aiding and advising the student body and administration when possible.

ALPHA PHI OMEGA

Alpha Phi Omega, national service fraternity, is the newest service organization to be installed at Miami, organized in May 1948.

Men who have been members of the Boy Scouts of America are eligible for membership. The organization, which is dedicated to service in both the campus and community, stresses the development of leadership and friendship.

Alpha Phi Omega has taken part in many University functions by conducting a campus-wide campaign, editing the ODK carillon, sponsoring a contest for the Ugliest Man on Campus with proceeds going to the Student Union Fund, and helping SFC in maintaining polling places in election season.
DEPARTMENTAL ORGANIZATIONS

ALPHA EPSILON RHO
The radio department sponsors this national recognition society which in-
stalled its Xi chapter at Miami. It honors students who have done good work
in the phase of radio. Enrollment in ra-
dio courses is not necessary, as outside
activities count toward eligibility.

ALPHA KAPPA DELTA
The Ohio Alpha Chapter of this soc-
ology honorary was organized in 1925. It is primarily interested in social prob-
lems. Membership requirements in-
clude an accumulative three point aver-
age and a "B" average in nine hours of
sociology plus registration in three
additional hours of sociology.

AMERICAN CHEMICAL SOCIETY
This society has a student affiliate chapter at Miami which was organized in
1946 for the purpose of giving those
interested in chemistry a chance to form
a semi-professional organization. It is
a departmental side with no scholarship
requirements and sponsors field trips and outside speakers in the field of
chemistry.

AMERICAN INSTITUTE OF ARCHITECTS
A group of architecture students are
members of the Junior Affiliate Chap-
ter of this Institute.

ASOCIATION OF CHILDHOOD EDUCATION
The Miami branch of this association
was organized in 1940. It has inter-
national scope and is open to all ele-
mentary education students.

BETA ALPHA PSI
This professional accounting society
organized its Omega chapter at Miami
in 1913. Its purpose is to promote
high scholarship and to develop high
professional standards among its mem-
bers. The honorary chooses its mem-
bers on a basis of high scholarship and
rigid examination on accounting.

BETA PI THETA
The Pi Gamma chapter of this nation-
al French honorary was brought to Mi-
ami in 1929. Through its many social
functions, it brings a wider knowledge of
the French nation to its members, who are chosen on the basis of a three
point average in French and a 3.0 aver-
age overall. Registration in an advance-
ed French course is also necessary.

COM-BUS
This honorary which is open to wo-
men in the School of Business Adminis-

COSMOPOLITAN CLUB
This club was organized for all students who are interested in foreign affairs and especially foreign students. It holds regular meetings with social events and reports on foreign affairs. It is a chapter of the Association of Cosmopolitan Clubs.

DELTA OMICRON
The Mu chapter of this national music honor society for women was established at Miami in 1925. Women music students who have achieved a high cumulative average and a high point average in music courses are eligible for membership.

DELTA PHI ALPHA
A "B" average in German courses plus registration in an advanced German course are the requirements for this recognition society. The Delta Kappa chapter was formed at Miami in 1935. The group aims to promote a better knowledge and understanding of German as a language and a culture.

DELTA PHI DELTA
This art recognition society established its Tau chapter at Miami in 1930. Juniors and seniors in the School of Fine Arts or the School of Education with a two-point cumulative average and a three-point average in art are eligible. Each year the group sponsors an art exhibit in Hamilton Hall.

DELTA SIGMA PI
The Alpha Upsilon chapter of this professional business fraternity was established at Miami in 1927. The fraternity is open to upperclass men business students who have a three-point average.

EL ATENEO
This is a Spanish club which was formed in 1948 for all students interested in the Spanish language or culture. It has been recognized by the Madrid, Spain, chapter of the organization.

EPSILON PI YAU
Junior and seniors in the field of Industrial Arts Education are eligible for this professional society which established its Gamma chapter at Miami in 1951.

ETA SIGMA PI
The Sigma chapter of this Latin and Greek honor society was installed at Miami
in 1927. Membership is open to honor students in the fields of Greek and Latin. Each year the honorary sponsors an essay contest which is conducted by the national organization.

**HOME ECONOMICS CLUB**

The Home Economics department sponsors this club which is open to home economics majors and minors and also탈 these majors. The group is affiliated with the American Home Economics association.

**KAPPA DELTA FI**

This national education honorary established its Nu chapter at Miami in 1929. Membership is open to juniors and seniors in the field of professional education who have made a three-point average in the School of Education. The group endeavors to establish a cooperative local group with preparatory practice in teaching.

**KAPPA PHI KAPPA**

The Xi chapter of this national men's professional education society was installed at Miami in 1925. Sophomores, junior and senior men in the School of Education are eligible for membership if they have a three-point average.

**CIECLE FRANCAIS**

This French club was organized for students who are interested in absorbing French atmosphere. Membership is open to all students who have completed one semester of French.

**LES POLITIQUES**

This government honorary was established in 1933, to promote scientific observation of social and political phenomena and to better campus, national and world standards. Membership requirements are a 2.75 cumulative, a three-point in an introductory social studies course and enrollment in an advanced government course.

**LIBERAL ARTS-ATHENAI**

This English honorary requires eight years of English with 40 percent "A" and 60 percent "B." with a three point cumulative average for membership. Its purpose is to foster the composition of aesthetic literature on campus. Each year it sponsors a literary contest open to all students at Miami.

**OXFORD FISH SOCIETY**

This group was organized in 1947 by a small group of students and faculty members to bring the best in American and foreign cinema to campus. Membership, which is open to anyone, requires the member to attend the films shown by the group. Since
The group is nonprofit, simple admissions cannot be sold.

PHI EPSILON ZAPPA
A group of physical education enthusiasts brought this national physical education fraternity to Miami in 1968. Junior and senior men who are physical education majors and have a 2.5 cumulative average and a low average in physical education courses are eligible.

PHI MU ALPHA - SINFONIA
This professional music fraternity for men brought to Miami in 1968. It is open to men who show an active interest in music and to the advancement of American music. Each year it awards a cup to the fraternity, which wins the inter-fraternity sym during Mother's Day weekend.

PHI SIGMA
This national science honorary was established in 1925 for students of botany, geology, physiology, and zoology. To be eligible for membership, a student must have completed 14 hours of natural science courses with a three-point average and have taken an active interest in a biological field.

PI MU EPSILON
This mathematics honorary was chartered at Miami last year when the national group installed the Ohio Delta chapter. A 3.5 average in mathematics and a three-point accumulative average plus completion of math through the calculus and registration in an advanced course are required for membership.

PI OMEGA PI
The Alpha Epsilon chapter of this national business honorary was formed at Miami in 1943 for future commercial teachers. Students in the field of business and having a "B" average in 15 hours and a 2.5 accumulative average are eligible. Its purpose is to promote progress in business and education.

PHI CHI
The Upsilon chapter of this psychology honorary was organized in 1940. A student must have a three-point average in 12 hours of psychology courses to be eligible for the literary. Its purpose is to stimulate an interest in current psychological problems.

SIGMA DELTA PI
This national Spanish honorary established its Alpha Alpha chapter at Miami in 1932. To be eligible for the
STUDENT ACTIVITIES

The Band at Homcoming

SIGMA DE LA PSI

This new physical education honoray was established last year. Men who can pass the 13 pertinent and scholarship requirements may become members. Trials are held three each semester.

SIGMA GAMMA EPSILON

This national geology honoray brought its Alpha Theta chapter to Miam in 1934. Eligibility requirements are a "B" average in 14 hours of geology or related subjects. The purpose of this honoray is to create a genuine interest in geological problems and to acquaint its members with the general field of geology.

SIGMA PI SIGMA

In 1933 the Omega chapter of this, the only national physics honoray, was installed on the Miami campus. Requirements for this honoray are a three point average in physics and mathematics and a three point average in everything else.
PUBLICATIONS

Freshmen who crave to investigate the latest carnal happenings and humor and who want to be the first to hear the news may throw their journalistic and literary skills into working for the three publications.

THE MIAMI STUDENT

The Miami Student, founded in 1826, is published semi-weekly by approximately 20 undergraduate staff. The publication includes three daily editions, one evening edition, and one weekend edition. The student newspaper serves as a platform for students to express their opinions on a wide range of topics, and it is the official voice of the student body. The staff works hard to ensure accurate and fair reporting, and it is known for its lively and engaging content.

THE TOMAHAWK

The Tomahawk, located in rooms 19 and 22, is the student newspaper of the university, and it is published weekly. The newspaper covers a wide range of topics, including local news, sports, and cultural events. The staff works diligently to ensure that the Tomahawk is a reliable source of information for the student community.

THE NEW LION

The New Lion, located in rooms 20 and 21, is the student newspaper of the university, and it is published bi-weekly. The newspaper covers a wide range of topics, including local news, sports, and cultural events. The staff works diligently to ensure that the New Lion is a reliable source of information for the student community.
The Recensio

The Recensio depicts the annual review of Miami's campus life. Freshmen who are interested work in the office, checking names and activities, testing, printing, editing, and handling, gathering information and doing odd jobs necessary in running the publication. The office manager has charge of the office and supervises freshman workers. Paying positions of editor and business manager are applied for at the end of the sophomore year.

Another part of the editorial staff is the photography staff.

M-book

The M-book, a student publication, is annually produced by a staff of about 50 people to orient new comers to the campus prior to their arrival in September. For the first time next year, the freshman Bible, as it is commonly known, will be sponsored by the Student Faculty Council, action having been taken this year. The co-editors and business manager will be selected from applicants by the Publications Board, formerly the Yh and Yw appointed the co-editors and sponsored the book.

MUSICAL ORGANIZATIONS

Men's Glee Club

Since its reorganization shortly after the way, the Men's Glee club has grown into one of the most active musical groups on campus. This organization is directed by Prof. George Warren and numbers from 50 to 60 members. Try-outs are held shortly after freshman week. The Glee club presents several concerts on campus every year as well as performances in other cities nearby.
Those interested in instrumental music may try out for either the University Marching Band or the Concert Band. The Marching Band, under the direction of Prof. Albert Lockwood, consists of a concert band after the football season. Half-time entertainments for the football and basketball games are furnished by the Marching Band, while the concert group gives several free performances during the winter and spring seasons. Both bands consist of from 80 to 100 students. Last year the marching band accompanied the football team in both the Dayton and Cincinnati games. Each year the concert band gives at least one concert outdoors in front of the library and a concert tour in neighboring districts.

The University Orchestra presents ample opportunity for work with stringed instruments. Both men and women may try out for positions in this organization, although membership is not limited to music majors. The orchestra, which is conducted by Prof. Lloyd Outland, plans to present several performances on campus and also cut-down concert tours.

The Choral Union is open to any person with an interest in vocal music. Membership in this group does not require a competitive tryout. The only requirement is the desire to sing. Both men and women may join. One of the high spots of the season is the big orchestra given by this group each year. In addition, the Choral Union presents various other programs throughout the year. Unlike other music organizations on campus no credit hours are given for membership in this group.

The Minnesingers is a mixed chorus group. Under the direction of Prof. George Lint the Minnesingers present an annual selling concert or opera. This group numbers about 50 or 60. With the exception of the Choral Union, one hour credit per semester is given for membership in any of the organizations.
Madrigal was the first vocal group to be founded at Miami. Strictly for women, members are chosen by try-outs held shortly after freshman week. Mux Zona Lyon directs the group in its many activities throughout the year. These activities include participation in assemblies, fundraising events, the presentation of annual concerts, and a yearly tour throughout the state. One of the most important of these activities is the annual Christmas program. Although membership in the Madrigal is not limited to any definite number, the group usually consists of about 60 voices.

SPEECH DEPARTMENT

Miami students with a flair for the activities connected with theatrical productions find many opportunities in the Speech Department, a dynamic organization and member of the National Theatre conference. The major productions of the University Theater are produced in Bonnar Hall. Membership in University Theater depends upon the amounts of time, effort, and hours devoted by the student. There will be many opportunities in acting, scene construction, lighting, publicity and other phases of these activities. All Miami students are
invited to try out for parts in the plays and freshmen are especially welcomed. Among the plays presented by University Theater are Shakespeare’s "Julius Caesar," the comedy " taxed" along with eight one-act plays by Noel Coward to Saroyan.

YF. MERRIE PLAYERS
An honor ary dramatics organization founded at Miami in 1919, Ye Merrie Players is the ambition of all hardworking actors and crew workers on campus. An invitation to membership in this organization is an honor bestowed only upon those students who excel in the field of play production. Several social activities are planned for the tournament during the athletic year.

RADIO
Building "O" on campus has become a popular center of activity since the establishment of radio station WMMB, the voice of Miami University. The programs pertaining to radio program production offer valuable experiences to interested students in this type of work, as vacation or avocation. The programs include the WMMB news programs, music, drama, advertising, and engineering.

Y M C A
The YMCA is both a social and religious body, interested in instilling in the minds of students a respect for their God, their church and their community.

SPEAKERS' BUREAU
Another active group is the Speakers' Bureau, which provides student speakers with opportunities to speak before student groups and religious organizations in the vicinity of Oxford. For an active interest in the Speakers' Bureau the speakers are awarded at the end of the year bronze keys for 6 hours of work, silver keys for 12 hours and gold keys for 24 hours. If you have a pet theory, you'd like to expound, see the Speakers' Bureau located in Macy Hall.
Throughout four years of college, fun and companionship are offered all youmg women at Miami through the Young Women's Christian Association. A sister organization to the YMCA, the women organize the entire program of activities and social affairs. The purpose of the YMCA is service; it is an aid in spiritual, mental and social growth.

Holding meetings every two weeks, the YMCA sponsors its program around educational discussion groups, debates and speakers. It has its own faculty which functions and cooperates with the upperclass cabinet.

Major features of the Freshman Y are the orientation of its new members into the upperclass Y program and acquainting the new student with the traditions and tribulations of University life. There is no membership fee; it is supported by the Miami Chest drive.

In conjunction with the YMCA, the YWCA sponsors the Freshman Mixer.
RELIGIOUS GROUPS

One of the most important phases in stu-
dent life at college is the student's atti-
itude toward religion and that which
it can offer and mean to him during his
college career. Many students at Mi-
amu realize this and are taking advan-
tage of the facilities offered them to
fulfilment of this essential factor in
their lives. Places of worship for all
most every religious denomination are
provided in Oxford and are within easy
walking distance of everyone. Special
services are held in Harrison hall at
Lent, Easter, Good Friday and Christmas.

Associated with their respective
churches and co-ordinated in a program
of activities under the leadership of
Dr. Arthur C. Wickenend, Director of
Religious Activities, and the Miami Stu-
dent Religious Council are the various
religious organizations. The Student
Religious Council is composed of re-
presentatives of each religious group
on campus. Its purpose is to coordi-
mate these groups in strong inter-faith
relationships as well as in social activi-
ties.

WESTMINSTER FOUNDATION

Students of Presbyterian preference
carry on weekly meetings for this
group. A program of movies, talks,
prayer meetings, discussions, and plays
are enjoyed by all participants. The
discussions, which appear in a monthly
bulletin, "Church Mirror."

CHRISTIAN SCIENCE ORGANIZATION

At 11 a.m. Easter, Sunday morning in
room 111, Harrison hall, regular ser-
vice are held for members of the Christian
Science faith. A testimonial service is
held once each month, and free lec-
tures are presented to the students
once each month.

WESLEY FOUNDATION

This organization is active in spop-
soring Kappa Phi, national women's
club, Delta Zigma Theta, national men's
club, a dramatic club, camera club, and
a newspaper. The headquarters are
found in Wesley house.
HILLEL
Every evening in Ogden Hall religious services are held for those of the Jewish faith. The club sponsors a training class each Saturday evening to better inform their students in their faith.

LUTHERAN STUDENT ASSOCIATION
Last year the Lutheran students on campus welcomed a new minister to their Masonic Place of Meeting. This club meets every week in order to enjoy both the religious and social aspects of their religion.

CANTERBURY CLUB
Maintaining a 120-year-old house at the center of their social activities, this group enjoys study classes and social meetings after the morning worship services in the church.

NEWMAN CLUB
Catholic students comprise the club which maintains a year-round program of both fun and religious inspiration. Dance parties and open houses are held, and a monthly newsletter, "The Reflector," is published.

UNITED PRESBYTERIAN FOUNDATION
This group is the only one on campus which meets on Sunday night for a worship service. The social program consists of a Tuesday night supper club and Bible discussion.

BAPTIST STUDENT FELLOWSHIP
Meeting Sunday afternoons at 4 p.m. in Wells recreation room, this club engages in alternating social and worship meetings. The Baptists are the newest group at Miami to form a worship, having organized just last year.

1883's
Student-Faculty Council
Tribe Miami
Several political parties operate at Miami during campus elections. Usually there are two, fraternal in nature, for the purpose of electing their group to all offices. Until this year, one party acted as a secret coalition. Many organizations, however, do not belong to parties and will secure representation.

When you get to campus, you should remember that you are a part of the student body, and as such you should express your vote in all campus elections. Use your vote, it is the only way that you can be well represented.

Elections are held for Student-Faculty Council and class officers in the spring. At the same time elections are held for trustees for the Reddin Reservation and Memorial Union committees, members of the Athletic Board of Control, and vice president of the Varsity Social Club.

SFC supervises all elections, dance queens and kings, Homecoming beauties, and special elections. They are ably assisted by Alpha Phi Omega, national service honorary.

FRESHMAN COUNCIL

Eye-catching banners, colorful posters, clever slogans, intriguing tunes, costumed animals—all go together to spread election campaign for Freshmen Council. Every October the new Freshman class presents its most promising members as candidates for Freshman Council.

Any freshman may run for election provided he has a C average at five weeks. Petitions must be signed by 10 signatures. Only freshmen may vote. Campaigns of many varieties with original schemes of publicity. Conventional marks of publicity are posters, banners, pins, and leaflets. The campus loses its dignified atmosphere and becomes one mass of colorful advertisements.

If your campaign succeeds and you are elected, you become a first-class wheel on campus. The president of the Council is the person having the largest number of votes of any candidate. He and the candidate of the op-
Student-Faculty council, consisting of students and faculty representatives, puts democracy into action at Miami and sponsors many projects during the year as well as legislatively and approving changes in campus activities. Composed of six faculty members elected by the University Senate and an unlimited number of students, S-F-C acts as a general supervisor of all campus activities and carefully studies any campus problems presented by students with suggestions or grievances. During the spring elections, which will appall you with its array of posters and other propaganda, you will find the names of candidates running for a position on the Council and maybe your own name plastered on every bus stop. All students can participate by voting for candidates and on each 100 votes is elected to office. Other student members on the Council other than those elected are the officers of President of Women's League, class presidents, senior members of the Men's and Woman's Disci-
submit a list of expenses to the Election committee of S-F-C.

But even if you are not a member of S-F-C, remember... it's your duty as a campus citizen to know and care what's going on.

DISCIPLINARY BOARDS

One segment of the campus student-faculty government which you will not run into often, if it is hoped, is the Disciplinary Board.

There are two boards, one for men and one for women. The two act jointly in cases involving both men and women. Composed of five faculty members and four student members, these boards act on all disciplinary matters referred to them, and on appeals from lower disciplinary authorities, such as house marshals in women's dormitories, or dorm wards of men's residences.

The student members are appointed by the Student-Faculty Council for a term of two years when they will join, so that there are two seniors and two juniors on the board.

These boards are invested with the power to act sternly, if necessary, since
WOMEN'S LEAGUE

Upon arriving at Miami, every wo-

man enrolled here is automatically a

member of Women's League, the wo-

men's government organization.

As in most campus activities, there

is a hierarchy in Women's League, the

top position occupied by the presi-

dent and other officers, the next rung on the

ladder given to members of Women's

League council, the sophomore coun-

selor also rating high, and the remain-

ing women not directly involved but

who can take an entire part in activities

of the League.

As a freshwoman, you can participate

in these activities — such as working

with some committee for the annual

cut by the League (a girls-takes-

boy affair), by being elected to the

house council in your dormitory or by

getting in on the act in dormitory so-

cial functions and other projects.

Members of the Women's League

council, the legislative body of the

League, are all housestewards of wo-

men's dormitories, all presidents of or-

ganizations exclusively for women and

highest ranking members of each pub-

lication.
Senior members of the Council, form-
ing the election committee, elect the
candidates for the six chairsmanships and
League offices (president, secretary and
treasurer) and then all the women on
campus vote for these officers.

Another sub-committee of the Coun-
cil is the inter-residence council, which
consists of representatives of the residence
not having housechairmen, such as cot-
tages. The president of the Council, 
elected within the group itself, is auto-
matically vice-president of Women's
League.

Other than dance and normal legis-
tative functions, the League also annu-
ally sponsors May Day, sponsors a tuition
scholarship, maintains a loan fund and
publishes a registration booklet for
Women Only.
ARTIST AND LECTURE SERIES

Along the cultural line — for those who enjoy the best in music — the Artist Series brings artists of world-wide fame to Miami's campus.

All you need to enjoy these Artist Series concerts is just one activity ticket and enough energy to hike to Miami's good ole opera house, Withrow Court.

Such artists as José Iturbi, Rose Stevens, Jascha Heifetz, and many others have appeared here in the past. A committee composed of faculty and students, with Dr. H. G. Montgomery as chairman, plans the Artist Series, in order that the students get an opportunity to hear the best and most worthwhile entertainment available during their college career.

As Dr. Montgomery said, "We tried for the best next year and we got them." Helen Traubel, Wagnerian soprano of the Metropolitan Opera Company, will make her second appearance.

http next year. Other artists to appear include Isaac Stern, popular violinist, Justl Birnberg, tenor of European opera fame and the Cincinnati Symphony Orchestra under the direction of Thor Johnson.

The London String Quartet, one of the top chamber music groups in the world, will also present a program under the auspices of the Artist Series.

The Lecture Series, which is a division of the Artist Series, plans to bring here one or two outstanding lecturers of wide fame who will be of interest to the entire student body. Besides the committee will also assist campus groups and departments in obtaining speakers of special interest in their particular field.

NIGHT LIFE

Your social life will not be neglected at Miami. Each passing week finds something new and different on the schedule.

The Homecoming dance starts the season. Each of the four classes sponsors its own dance. The Freshman Short
Your Miami social life is not complete unless you’ve been to the Redskin Reservation. The "Res" is the perfect place to relax with the girls, watch intramurals between classes or go with your date in the evening. The "Res" operates in cathedral style, serving good food at low prices.

This, however, is only the beginning of something much better. All profits from this cafeteria building are turned over to the Memorial Student Union Fund. The students of Miami, and many of her alumni, are working toward the establishment of a union building complete with a ball room, dining halls, and all of the other "fancy touches."

Student organizations give benefits shown, dances, and for the true fraternity, for the true fraternity. Fraternity members need to pass each Miami, $5 in order. In the spring of 1949, Paul Blinck introduced the state legislature a bill of land Miami names for the union building. If the bill goes through, freshmen may see a student union on Miami’s campus before they graduate.
SORORITIES

 Sororities play an important part in campus life, but it is well to remember that they are not so "all-important" as they appear during the first hectic weeks of rushing.

 They are social organizations whose main purpose, besides encouraging scholarship and participation in activities, is to create lasting friendships. At Miami it is neither an assurance of social success nor a requisite for a happy college life to belong to a sorority. A point to consider in deciding whether or not to pledge is that sorority women total a minority on campus compared to unaffiliated women.

 Instead of the usual sorority houses, each group maintains a suite in either Hamilton or South halls, women's dormitories. They consist of a living room, kitchenette and storage space and are rented from the university. Many lasting friendships are formed in the dorms because of this arrangement.

 Panhellicn council is the representative group for all the sororities. It formulates the general policies concerning rushing and various joint enterprises, such as the Panhellicn dance, Homecoming floats and booths for the ODK Carnival. They decide financial matters also. You will meet the president at the first meeting in Benton hall who will explain the sorority system in more detail to you and distribute booklets containing the rules and regulations.

 All women interested in rushing may attend the open hurriedly given by the sororities in their suites. The sororities then send invitations through Panhellicn to women in whom they are interested. At these parties, women from the various groups get acquainted with you and vice versa. The rush period lasts three weeks and is divided into three sections of one week each. The precedence card system used by Miami sororities will be explained in the meeting in Benton hall. Incidentally, don't forget to fill out a card as to your interest in rushing. It's important!

 Although the main emphasis placed on rushing occurs in the early fall, many women prefer to wait until semesters or the following year to be rushed, for they feel that the are better able to judge which sorority they like best or whether they wish to affiliate at all.

 Miami boards of two Alpha chapters, Delta Zeta and Delta Sigma Epsilon.
There is one local, Alpha Kappa Epilson; the rest are national members of the National Panhellenic Association. Since only about one-third or less of the freshmen women are pledged, there are bound to be some good prospects left out. Sometimes you may be pledged later or decide entirely against affiliation. You must remember that sororities are not the only ones who choose. It is up to you to select after just three weeks' acquaintance, the women with whom you would like to be identified through your college career.

The sororities now represented on campus are:
Alpha Chi Omega
Alpha Delta Phi
Alpha Kappa Epilson (local)
Alpha Omicron Pi
Chi Omega
Delta Delta Delta
Delta Gamma
Delta Sigma Epilson
Delta Zeta
Gamma Phi Beta
Kappa Kappa Gamma
Pi Beta Phi
Sigma Kappa
Theta Xi Omega
Xi Eta Tau Alpha

A.M.I.

Membership in the Association of Miami Independents is open to any unaffiliated student attending WMU University. This membership is not binding if a student wishes to become affiliated with a fraternity or sorority.
Each year A.M.I. holds an open house early in the fall for the purpose of registering new members.
Additionally to its business meetings, the first and third Wednesday of every month, and its social meetings, the second and fourth Wednesday of every month, A.M.I. sponsors several dances throughout the year. These are open to the campus, but members of A.M.I. are admitted free.
A.M.I. works to attract unaffiliated students, gives unaffiliated students the political opportunities they might not have as individuals and a chance to display leadership, provide extra-curricular facilities and representation for independent students in all campus activities in order to carry out these objectives. A.M.I. has organized several standing committees.
Since only about forty per cent of the students "go Greek," A.M.I. can provide opportunity for any interested freshmen.
FRATERNITIES

Miami has been known in fraternity circles as the "Mother of fraternities" for many years, since four leading national fraternities were founded here. Fraternities have played an integral part in the University's history; at present there are 17 chapters on campus furnishing entertainment, housing and boarding facilities of great value to the campus.

In 1833 a chapter of Alpha Delta Phi was established at Miami; this was the first fraternity to expand to the West. Beta Theta Pi was founded as a rival fraternity in 1839, the first college fraternity founded west of the Allegheny mountains.

These two grew until the Snowball Rebellion of 1847, when all of the Alpha Delts and all but two of the Betas were expelled. To fill the void and rival the Betas, Phi Delta Theta was founded in 1848. A few years later a group of Phi Delts were expelled from the chapter for insubordination. They obtained a charter from Delta Kappa Epsilon and became the third active group on campus.

This group, too, had its troubles. Dissension over who could make the best class poet so irked some of the Dukes that they turned in their lodges and, in 1855, started the Sigma Chi fraternity.

Phi Kappa Tau, the fourth Alpha chapter on campus, was founded as a political coalition in 1906.

Organized fraternity nothing will begin in February, after first semester grades are released. Interested freshmen will sign up in the dormitories to establish scholastic eligibility, and to let the fraternities know who's who.

On a Sunday evening soon after, each fraternity will have an open house, at which time freshmen may visit each fraternity house to look the place over and to meet the men. After this the fraternities will contact those men they wish to put on for dates during Rush week — a time of aching feet, set eyelashes and cigarette hangovers, as well as much handshaking and many new personalities.

Rushing will be more fully explained after you get here, along with all of the latest rulings. Fraternities govern themselves in this (as well as in other matters) through the Inter-Fraternity Council, a group composed of representatives of all fraternities.
One regulation which freshmen should remember: stay out of fraternity houses your first semester, unless you have special permission.

With the large enrollment and limited number of fraternities, it is obvious that some potential men are missed; therefore the freshman should not be too disappointed if he is not pledged during rush week. Many men pledge when upperclassmen, and many good men remain independent throughout their college career.

The fraternities now on campus are:

Alpha
Beta Theta Pi
Delta Chi
Delta Kappa Epsilon
Delta Tau Delta
Delta Upsilon
Lambda Chi Alpha
Phi Delta Theta
Phi Kappa Tau
Phi Kappa Alpha
Sigma Alpha Epsilon
Sigma Chi
Sigma Nu
Sigma Phi Epsilon
Theta Chi
Zeta Beta Tau
1850's

ATHLETICS

Homecoming Game at the Stadium
COACHING STAFF

New coaches are a dime a dozen on the Miami campus this year as two of the school's former mentors took positions at the University of Cincinnati and a third coach resigned after seven years here. The new directors of Miami's athletic teams hope to produce the same fine teams as in previous years.

The job of director of intercollegiate athletics is now being done by James A. Gordon and Merlin Ditmer. Gordon holds the title of manager of athletics and as such he schedules all intercollegiate sports and handles the department finances. In the spring he also coaches freshman track. He is well fitted for the track coaching as he was a leading Miami trackman and placed in the 1932 Olympic Games. He was formerly head freshman coach in all sports and has been here since 1946.

Merlin Ditmer has been at Miami since 1932 and was director of intercollegiate athletics until last summer when the post was put in charge of two men. Ditmer was made public relations manager of the department at this time and has been rather inactive due to failing health.

George L. Bidder, who has been at Miami since 1924, is head of the physical education department and head track and cross country coach. Bidder is nationally known for his ability to produce outstanding track teams and in May of 1938 his squad won the Mid-American Conference track championship.

W. "Woody" Hayes was picked in February to guide the fortunes of Miami's Mid-American Conference champions in gridiron and John L. Brackels was chosen as the first grid assistant and broad field coach. When Sid Gillham, Miami grid coach in 1947, left his post at West Point, N. Y., to take over at Cincinnati, 1948 Redskin coach Blackburn and his assistant Joe Modro soon followed, leaving Miami holding an empty bag.

W. "Woody" Willis and Warren Schmuckel are the two assistant football coaches held over from the Blackburn regime. The 1948 season was their first at Miami.

After seven years at the helm of Miami sage and diamond squads, W. J.
FOOTBALL
The football system of Woodrow "Woody" Hayes and John Bridgels is to begin its freshman year at Miami in 1949.

In his only year as head man of Miami’s football team, Black- burn brought the Tribe through the season with seven wins, one loss, and one tie. The squad captured all conference foes and won the Mid-American Conference championship. Led by captain Paul Shoults, the Redskins rolled up 147 points while yielding only 47 in league competition.

For the season, the Maumeean garnered 249 tackles and gave up 90 to their opponents. Shoults was the leading scorer, for the third consecutive year, with a total of 66 points and was the leading ground-gainer for the team. Maybe the most imposing upon the champions from Oxford, Miami semi- nomed the A.P. All- conference team for the second straight year with four men on both the First and Second teams. Shoults, Weav, Shoults, Moli Olss and Irish Urbich made the First team, three men sitting behind. The First three men above also were awarded positions on the All-Ohio squad. Shoults was run-
their honored as being the most valuable man in the Mid-American Loop.

Stellar quarterback of the Miami "T" Mel Oliu was also regarded as a con-
stant nemesis by his opponents. He was the #1 Rebskin to be rated on
both the U. D. and U. C. all-opponent teams although he was not as effective
as the previous season.

At the annual fall sports banquet the results of the grading system maintain-
ed by Coach Wierzbowski were announced and trophies were presented to the
most-efficient men. Dick Urlich proved to be the most-thorough offensive line-
man while Ernie Flank, 1949 captain,
was the best defensive lineman. The most efficient backfield men were
Mel Oliu on offense and Paul Dellerke on defense. Captain Shoultz was voted the
most valuable player by his team-
mates.

Proving that "practice makes perfect" the "Pascoes," Miami's freshman elev-
ens, closed their four-game season with victories over Dayton and Butler after
losing to Xavier, and Cincinnati earlier in the year. These men along with the
lettermen give Miami's new grid
tutor "Woody" Hayes a rosy outlook
for his first season as the Gridiron chief.

BASEBALL

In his last year at Miami, Coach W. J. "Blue" Foster was holding up his fine
baseball record and by the first of May his charges were scoring a responsible
9-3 record.

Expectations are high for the 1950 season as only three members of the
squad were to be lost by graduation. The entire infield and pitching staff
will return for duty.

Pitching appears to be the most vulnerable spot on the team. However, Bob
Block, the Tribe's number one hurl-
er, is the owner of a topsmash record. He suffered his first college loss against
the University of Cincinnati after winning nine straight. Barking Block will be Frank Pelicou, Charles Fibbergham, Glen Scheimbachler, John Sanders and Carl Rodenour. Gene Smith and Jack Sheard will return to handle the catching chores.

The infield will be made up of such experienced veterans as Jack Bickett, Harry Schwesman, Austin Palmer and Marshall Mowry. Buck to patrol the outer gardens will be Bob Frymen, who led the Mid-American conference in batting in 1948.

The Redskin diamondmen opened the 1949 season with a spring trip through Tennessee. They returned victorious, winning four straight contests from their Volunteer state opponents.

CROSS COUNTRY

Miami’s cross country team, invariably numbered one in Ohio, will again be bolstered with outstanding talent for the 1949 campaign. In addition to five returning lettermen, from last year’s team, Coach George L. Rider will have the services of seven promising sophomores, who were advanced from the undeveloped freshman team of 1948.

MIKE STAVOLE AND CARTTON “Clink” Fuller, who ran one-two for the Redskins during the past two seasons, will be hard pressed to retain top honors against two newcomers, Cash Powell and Phil Nygoss. Howard McClure of Iowa, slipped past Stavole’s freshman record last fall for the three and one-half mile course with a 19:05 performance.

The Tribe Windjammers will be out to recapture the Mid-American conference championship which will be contested on the Miami course in November.

After winning the conference title with ease in 1947, the Redkins re-instituted their claim to Western Michigan College last fall in the annual meet run at Avon Field in Cincinnati.

1949 CROSS COUNTRY SCHEDULE

Oct. 8 - Ball State and Bowling Green at Muncie, Ind.
Oct. 15 - Indiana at Oxford
Oct. 22 - Ohio Univ. at Oxford
Oct. 29 - Western Michigan and Butler at Kalamazoo, Mich.
Nov. 5 - Michigan Normal at Oxford
Nov. 12 - Mid-American conference meet at Oxford
Nov. 21 - NCAA meet at East Lansing, Mich.
BASKETBALL

Coach W. J. "Bud" Foster's cagers in
winning only eight of a 31 game sched-
ule showed their proudest season since
the arrival of Coach Foster of Miami.
Foster, at the close of the season,
turned in his resignation and John I, "SHA" Brittells was immediately named
as the new coach.

Brittells, as head
cap coach at the Uni-
versity of West Vir-
ginia in 1944, took
an invitational squad to the Na-
tional Invitational Tournament in Madis-
on Square Garden. Brittells is also assist-
ent football coach at
Miami.

Seven of the eight
Redskin victories
came during the first half of the season
before the tie, through graduation, of
the two top Redskins stars, Paul Schnack-
enberg and Bob Brown.

Brown scored 239 points in the 13
games he participated in to lead the
team scoring for the entire season. He
later received honorable mention on the
1949 United Press All-American squad.

Schnackenberg scored 181 points in
the 13 games he participated in to take
second scoring honors for the season.
He was later given a place on the 1949
Associated Press All-Chio squad.

Perhaps the most satisfying game of
the year was when the Redskins held
the high scoring University of Cincin-
nati quintet to a 43-35 victory over the
Tigers in Withrow Court. The Cincin-
ati squad, the Mid-American Confer-
ence basketball champions, had been
picked to "run the score up" on the
Redskins.

In the CCHS game played in Madison
Square Garden over the Christmas holi-
days a fighting Alliance quintet was
down to a 72-55 defeat at the hands of
the strong New York squad. The Red-
skins had stunned the large crowd by
leading the formerly favored New York-
ers for the first few minutes.

TENNIS

Miami's net schedule for 1949 was a
large and varied one with the Redskins
not only meeting such teams as Indiana,
Ohio State and the University of Cincin-
nati, but also playing under tutelage of
Coach Al Moore. Miami's racketmen met
this rough schedule more than halfway and
came out with approximately a .500 average. They started off with a very decisive victory over the Middlebrow Tennis Club 6-1, but hampered by a high wind and bad weather, they lost the second meet to Ohio State 7-2.

In the next match of the season, they met the very strong University of Cincinnati squad and were defeated 9-0. Then they split a series of two with the Xavier rocketeers. The Redskins won the first 6-1 and lost the second 4-3.

In the match with Indiana, the Redskins had trouble with their singles matches and lost 6-3.

Varsity singles players were Frank Dodd, Davenport Boyd, Jack Cummins, Jack Rahnits, Don Hunter and Tom Snyder. Dodd and Boyd usually made up one doubles team while Cummins and Rahnits made up another. In the meet where three doubles matches were played, Snyder and Ted Butler usually composed the third team.

During the fall Coach Moore teaches classes for beginners in tennis and conducts tournaments to pick promising men for the varsity and freshman netsquads.

TRACK
Coach George E. Rider is the reason that Miami has been having winning track teams for the last 26 years.

Coach Rider starts varsity track practice at the beginning of the second semester. Freshman track coach Jim Gordon begins freshman track practice a few weeks later. Freshmen are not eligible for varsity competition.

During the indoor season the varsity team competes in the Central Conference championship, Illinois Tech Relays, Cleveland Knights of Columbus meet and the Purdue Relays. Miami's two mile relay team of Mal Brooks, Art Gergely, Hal Punnis and Walt Edwards won first place in the Illinois Tech Relays.

In the outdoor season the varsity runs in the Drake relays, the Mid-American
ian conference meet and fins or six dual meets, Miami made a far showing in dual competition and a very good showing in the Mid-American conference meet. In a triangular meet against Dayton and Xavier, Miami scored over 100 points.

Miami should have a strong team next year if last spring's freshman team is any indication.

Any freshman who is interested in working out in the fall should see Coach Rider as soon as he starts school. Many freshmen have found track practice a great help when spring rolls around.

Outstanding varsity men on this year's squad who will return are its Deep in the quarter mile, Bucky Wall- ters and Max Leonard in the pole vault and Mike Stevole in the two mile.

**BOXING**

Although not an intercollegiate sport at Miami, the boxing squad under the tutelage of Coach Jay Colville sent representatives to three tournaments in the Oxford area with excellent results.

In the Dayton Daily News Golden Gloves tourney, Herbo Ledyard, light heavyweight, and Ted Sloban, middle-weight, reached the finals. Gail Duff, welterweight, received the Daily News' "Sportsmanship" trophy.

The AMVETS AAU tournament, also in Dayton, saw Lafe Williams, welterweight, reach the finals, while in the WIRC Golden Gloves matches in Cincinnati, Williams and Don Kinch showed up well.

**GOLF**

Miami University owns and operates a beautiful, rolling nine-hole golf course, which is located on the north side of Oxford near Withrow Court. Students and local residents may play on the course for a small fee.

Both a varsity and freshmen team are maintained at Miami. The varsity is one of the top teams in the state and in the Midwest, and this year they were led by Ted Duvak, junior and three-year letterman. Other outstanding men on the north were Lou Reid, George Zinn, Art Stone, Gary Carle, Red Mowery, and Sam Hargreaves. Miami was defending champion of the Mid-American Conference and was runners-up in the Ohio Intercollegiate Match at Ohio State University. During the past few years Miami has had
matches with such schools as Ohio State, Kentucky, Indiana, Xavier, Dayton, Cincinnati, Butler, DePauw, Ohio University, Purdue, and others.

The freshman team was reactivated this year and played home-and-home matches with DePauw, Cincinnati, and Xavier freshman teams. Freshman num-

INTERRALURAL SPORTS

Student athletics under the direction of Professor T. P. Van Voorhis and his staff of physical education majors are voluntary and give every male student in the University a chance to participate in some form of supervised sport. The program has been designed to be as attractive for a large group, regardless of ability, as the intercollegiate sports are to a more specialized group.

The intramural program has been in full swing this past year with the champions in all out spring softball having been crowned. The results show Phi Kappa Tau the winner in volleyball.

fall softball, and football with Lambda Chi edging Theta Chi in golf and Delta Upsilon making out Delta Tau Delta in basketball.

An annual intramural sports night is held for the final playoff game in bas-

Student sports have use of Withrow Court, the athletic fields and the golf course. Oxford's municipal pool is also available to all students and is open all summer. Interest is very high in intra-

murals at Miami because of the number of students participating and the rivalry between the fraternities, dormitories, and various other groups desiring com-

petition.

Intramurals fall into three seasonal periods; fall, winter and spring during the regular school year. There is also a program of sports for the summer sessions here at the University.

COED ATHLETICS

Forel, Polly; En gardel! These are just a few of the yelled that one might hear coming from the voices of girls enthusiastic about sports. Under the sponsorship of the Women's Athletic
months
There are bowling alleys where one can show skills of taking off a spare or two. Miami competes in the National Intercollegiate Men's, in which many other colleges and universities participate.

With Miss Prize to help you, don't miss out on the fencing. Fencing and polo are both with the girls with weapons of attack and protection.

For the rhythmically inclined students, modern dancing, taught by Miss Denham and Miss Waterman, offers an opportunity for expression in this field. It is claimed that we find the budding artists to the Orchestra, the national object handsome, which gives a concert each spring meeting the attention of the whole University.

Spring time finds the sports lovers out-of-doors. Softball tournaments and archery matches add to the fun of the season.

Miami tennis courts are always crowded. Get a racket and enjoy the fun.

If you're the outdoor type, sign up for camping and cooking. Miss Bassett is always ready to take eager campers to the WAA cabin, which is set in beau-
WOMEN'S ATHLETIC ASSOCIATION

The athletic-minded girl on campus will want to belong to the Women's Athletic Association, which is under the faculty guidance of Miss Phillips, the head of the women's physical education department. The purpose of its program is to build up interest in a healthy type of recreation while providing opportunities for women to enjoy, as well as in some that may be unfamiliar to them, friendly competition, good sportsmanship, and the development of a certain amount of skill at the various games.

Every year WAA has its social functions, which they sponsor. The Freshman Social is the first of these and is attended by the newwomen with the organization. Highlight of the social calendar is the crowning of the Homecoming Queen. Climaxing the year, outstanding women athletes are recognized.
